## Agenda:

- Guest Speaker - Lee McKnight
- Samsara - Procurement findings
- Flock Safety - Update
- Sentiment Analysis - Update
- Questions

## Meeting Notes:

- The question was asked about how the public comment period would look for Samsara
  - We are currently working on the press release but we will message the language to ensure that we are being transparent about the status of the tech and its current use.
- There were no objections to moving Samsara forward into the public comment period.
- The question was asked when we send out the Samsara press release if we would be including a disclaimer around the fact that it is a pilot and was procured after the Mayor's EO and that we are attempting to continue to follow the procedure as best we can.

## Action Items:

- ☐ Push press release out for both Samsara and Flock Safety for the public comment period.
