### **SEQRA RESOLUTION**

A regular meeting of the City of Syracuse Industrial Development Agency was convened in public session on February 25, 2025 at 8:00 o'clock a.m., local time, in the Common Council Chambers, City Hall, 233 East Washington Street, Syracuse, New York.

The meeting was called to order by the Chair and upon the roll being duly called, the following members were:

**PRESENT**: Kathleen Murphy, Steven Thompson, Rickey T. Brown, Kenneth Kinsey

**EXCUSED**: Dirk Sonneborn

THE FOLLOWING PERSONS WERE ALSO PRESENT: <u>Staff Present</u>: Eric Ennis, Susan Katzoff, Esq., Cole King, Lori McRobbie; <u>Others Present</u>: Chuck Wallace, Tylah Worrell, Brianca Hill, Luke Esposito, Chris LaBerge

The following resolution was offered by Steven Thompson and seconded by Rickey T. Brown:

RESOLUTION DETERMINING THAT THE UNDERTAKING OF A CERTAIN PROJECT AT THE REQUEST OF 101 NORTH SALINA ST, LLC WILL NOT HAVE A SIGNIFICANT EFFECT ON THE ENVIRONMENT

WHEREAS, the City of Syracuse Industrial Development Agency (the "Agency") is authorized and empowered by Title 1 of Article 18-A of the General Municipal Law of the State of New York (the "State"), as amended, together with Chapter 641 of the Laws of 1979 of the State of New York, as amended from time to time (collectively, the "Act"), to promote, develop, encourage and assist in the acquiring, constructing, reconstructing, improving, maintaining, equipping and furnishing of industrial, manufacturing, warehousing, commercial, research and recreation facilities, for the purpose of promoting economically sound commerce and industry to advance the job opportunities, health, general prosperity and economic welfare of the people of the State, to improve their recreation opportunities, prosperity and standard of living; and

WHEREAS, to accomplish its stated purposes, the Agency is authorized and empowered under the Act to grant "financial assistance" (as defined in the Act) in connection with the acquisition, reconstruction, and equipping of a "project" (as defined in the Act); and

WHEREAS, 101 North Salina St, LLC (the "Company"), by application dated December 3, 2024 (the "Application"), requested the Agency's assistance with a project (the "Project") consisting of: (A)(i) the reconstruction/conversion of approximately 44,000 sq. ft. of vacant space in the two-story approximately 200,000 sq. ft. mixed-use building (the "Building") located on an approximately 4.14 acres of real property at 101-239 North Salina Street (tax map no. 104.-08-01.0) in the City of Syracuse, New York (the "Land") into approximately 72 apartment units consisting of approximately (66) one bedroom units and (6) two bedroom units,

of which 10% of the units will be designated and reserved for tenants meeting the income and affordability requirements in accordance with the City of Syracuse's Zoning Ordinance and related regulations; interior mechanical and structural upgrades and the construction or installation of various amenities for residents, including but not limited to, a fitness center, bicycle storage, tenant storage, and a community room (collectively, the "Facility"); and (iii) the acquisition and installation in and on the Land and Facility of furniture, fixtures and equipment (the "Equipment" and together with the Land and the Facility, the "Project Facility") in connection with the conversion and reconstruction; (B) the granting of certain financial assistance in the form of exemptions from real property tax, State and local sales and use tax and mortgage recording tax (in accordance with Section 874 of the General Municipal Law) (collectively, the "Financial Assistance"); (C) the appointment of the Company or its designee as an agent of the Agency in connection with the acquisition, conversion/reconstruction, equipping and completion of the Project Facility; and (D) the lease of the Facility by the Agency pursuant to a lease agreement and the acquisition of an interest in the Equipment pursuant to a bill of sale from the Company to the Agency; and the sublease of the Project Facility back to the Company pursuant to a sublease agreement; and

WHEREAS, pursuant to State Environmental Quality Review Act and the regulations promulgated thereunder ("SEQRA"), the Agency is required to make a determination with respect to the environmental impact of any "action" (as defined in SEQRA) to be taken by the Agency and the approval of a project and grant of financial assistance constitute such an action; and

WHEREAS, to aid the Agency in determining whether undertaking the Project may have a significant impact upon the environment, the Company has prepared and submitted to the Agency Part 1 of a Full Environmental Assessment Form (the "EAF") with respect to the Project, a copy of which is attached hereto as Exhibit "A" and on file at the office of the Agency; and

WHEREAS, the Agency examined the EAF in order to classify the Project; and

WHEREAS, by resolution adopted January 28, 2025, the Agency classified the Project as a Type I action (as defined in SEQRA) and declared itself "lead agency" (as defined in SEQRA) for the purposes of conducting a coordinated review pursuant to SEQRA; and

**WHEREAS**, by letter dated February 4, 2025, notice was given to each "involved agency" (as defined by SEQRA) identified by the Company of the Agency's declaration to act as lead agency for purposes of a coordinated review of the Project and consent to such declaration has been received from each such involved agency; and

WHEREAS, as a result of its careful review and examination of the Project, the EAF and additional correspondence and information received by the Agency, the Agency finds that, on balance, and after careful consideration of all relevant Project documentation, it has sufficient information to, as contemplated by SEQRA, identity with respect to the Project the relevant areas of environmental concern, take a careful look at them, give consideration to opportunities to mitigate potential impacts and make a determination regarding the impacts; and

WHEREAS, the Agency has prepared Parts 2 and 3 of the EAF with respect to the

Project, copies of which are attached hereto as **Exhibit "B"** and made a part hereof, to elaborate on the basis for the Agency's determination; and

**NOW, THEREFORE,** be it resolved by the members of the City of Syracuse Industrial Development Agency, as follows:

- (1) Based upon an examination of the EAF, information furnished by the Company and others including the letter dated December 4, 2018 from the Director of the Division of Historic Preservation of the State Office of Parks, Recreation and Historic Preservation, the criteria contained in 6 NYCRR §617.7(c), the Agency's knowledge of the area surrounding the Project Facility, and such further investigation of the Project and its environmental impacts as the Agency has deemed appropriate, the Agency makes the following findings and determinations with respect to the Project pursuant to SEQRA:
  - (a) The Project constitutes a Type 1 Action;
- (b) The Agency declared itself Lead Agency with respect to a coordinated review of the Project pursuant to SEQRA and all required notices were duly provided;
- (c) The Project will not have a significant effect on the environment, and the Agency will not require the preparation of an Environmental Impact Statement with respect to the Project; and
- (d) As a consequence of the foregoing, the Executive Director of the Agency is hereby authorized to execute and cause publication of and distribution of this negative declaration in accordance with SEQRA.
- (2) A copy of this Resolution, together with the attachments hereto, shall be placed on file in the office of the Agency where the same shall be available for public inspection during business hours.
- (3) The Secretary of the Agency is hereby authorized and directed to distribute copies of this Resolution to the Company and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution.

The question of the adoption of the foregoing resolution was duly put to vote on a roll call, which resulted as follows:

<u>NAY</u>

The foregoing Resolution was thereupon declared duly adopted.

STATE OF NEW YORK	)
	) SS.
COUNTY OF ONONDAGA	)

I, the undersigned Secretary of the City of Syracuse Industrial Development Agency, **DO HEREBY CERTIFY** that I have compared the annexed extract of the minutes of the meeting of the City of Syracuse Industrial Development Agency (the "Agency") held on February 25, 2025, with the original thereof on file on file in the office of the Agency, and that the same (including all exhibits) is a true and correct copy of the proceedings of the Agency and of the whole of such original insofar as the same relates to the subject matters referred to therein.

**I FURTHER CERTIFY** that (i) all members of the Agency had due notice of such meeting, (ii) pursuant to Section 104 of the Public Officers Law (Open Meetings Law), such meeting was open to the general public and public notice of the time and place of such meeting was duly given in accordance with such Section 104, (iii) the meeting was in all respects duly held, and (iv) there was a quorum present throughout.

**I FURTHER CERTIFY** that, as of the date hereof, the attached resolution is in full force and effect and has not been amended, repealed or rescinded.

on 4/15/2025 WHEREOF, I have set my hand and affixed the seal of the Agency

City of Syracuse Industrial Development Agency

Ruby B\_

Rickey T. Brown, Secretary

(S E A L)

### Full Environmental Assessment Form Part 1 - Project and Setting

### **Instructions for Completing Part 1**

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

only approval(s) which must be granted to e  • If Yes, complete sections C, F and	Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed?  ■ If Yes, complete sections C, F and G.  ■ If No, proceed to question C.2 and complete all remaining sections and questions in Part 1			
C.2. Adopted land use plans.				
a. Do any municipally- adopted (city, town, where the proposed action would be locat	village or county) comprehensive land use plan(s) ed?	) include the site	lNo	
If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located?				
b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway; Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?)  If Yes, identify the plan(s):  NYS Heritage areas: Syracuse			□No	
c. Is the proposed action located wholly or proposed action located wholly or proposed and adopted municipal farmland protect If Yes, identify the plan(s):	partially within an area listed in an adopted municigation plan?	pal open space plan, ☐Yes☐	]No	

C.3. Zoning	
a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance.  If Yes, what is the zoning classification(s) including any applicable overlay district?  MX-5 Central business district. A variance was received for the project that allows ground floor dwelling units in this district.  ———————————————————————————————————	✓ Yes No
b. Is the use permitted or allowed by a special or conditional use permit?	☐Yes Z No
c. Is a zoning change requested as part of the proposed action?  If Yes,  i. What is the proposed new zoning for the site?	☐ Yes ☑ No
C.4. Existing community services.	
a. In what school district is the project site located? Syracuse City School District	
b. What police or other public protection forces serve the project site?  Syracuse Police Department	
c. Which fire protection and emergency medical services serve the project site?  Syracuse Fire Department	
d. What parks serve the project site?  Onondaga County Parks, City of Syracuse Department of Parks	
D. Project Details	
D.1. Proposed and Potential Development	
a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, components)? Residential apartments	include all
b. a. Total acreage of the site of the proposed action? 4.69 acres b. Total acreage to be physically disturbed? c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? 4.69 acres	
c. Is the proposed action an expansion of an existing project or use?  i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, square feet)? % Units:	☐ Yes  No housing units,
<ul> <li>d. Is the proposed action a subdivision, or does it include a subdivision?</li> <li>If Yes,</li> <li>i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types)</li> </ul>	□Yes <b>☑</b> No
<ul><li>ii. Is a cluster/conservation layout proposed?</li><li>iii. Number of lots proposed?</li></ul>	□Yes <b>☑</b> No
e. Will the proposed action be constructed in multiple phases?  i. If No, anticipated period of construction:  ii. If Yes:  • Total number of phases anticipated  • Anticipated commencement date of phase 1 (including demolition)  • Anticipated completion date of final phase  • Generally describe connections or relationships among phases, including any contingencies where progress determine timing or duration of future phases:	Yes No

Will a line extension within an existing district be necessary to serve the project?	☐ Yes ☑ No
If Yes:	
Describe extensions or capacity expansions proposed to serve this project:	
iv. Will a new wastewater (sewage) treatment district be formed to serve the project site?	☐Yes <b>Z</b> No
If Yes:	
Applicant/sponsor for new district:    Description:	
<ul> <li>Date application submitted or anticipated:</li> <li>What is the receiving water for the wastewater discharge?</li> </ul>	
v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including spec	ifying proposed
receiving water (name and classification if surface discharge or describe subsurface disposal plans):	
vi. Describe any plans or designs to capture, recycle or reuse liquid waste:	
e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction?  If Yes:	□Yes ZNo
i. How much impervious surface will the project create in relation to total size of project parcel?	
Square feet or acres (impervious surface)	
Square feet or acres (parcel size)	
ii. Describe types of new point sources.	
iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent p groundwater, on-site surface water or off-site surface waters)?	roperties,
If to surface waters, identify receiving water bodies or wetlands:	
Will stormwater runoff flow to adjacent properties?	□Yes□No
iv. Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?	□Yes□No
f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel	☐Yes <b>Z</b> No
combustion, waste incineration, or other processes or operations?	
If Yes, identify:	
i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)	
ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)	
iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)	
g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit,	□Yes <b>Z</b> No
or Federal Clean Air Act Title IV or Title V Permit?	
If Yes:  i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet	□Yes□No
ambient air quality standards for all or some parts of the year)	
ii. In addition to emissions as calculated in the application, the project will generate:	
• Tons/year (short tons) of Carbon Dioxide (CO <sub>2</sub> )	
• Tons/year (short tons) of Nitrous Oxide (N <sub>2</sub> O)	
<ul> <li>Tons/year (short tons) of Perfluorocarbons (PFCs)</li> </ul>	
• Tons/year (short tons) of Sulfur Hexafluoride (SF <sub>6</sub> )	
Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)	
Tons/year (short tons) of Hazardous Air Pollutants (HAPs)	

h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants,		
landfills, composting facilities)?  If Yes:		
i. Estimate methane generation in tons/year (metric):		
ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to go	enerate heat or	
electricity, flaring):		
i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as	☐Yes <b>Z</b> No	
quarry or landfill operations?		
If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust):		
j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial	☐Yes <b>Z</b> No	
new demand for transportation facilities or services?

Describe:			77	

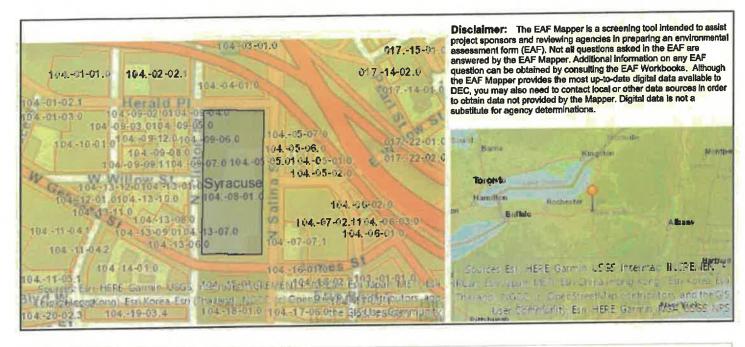

c. Is the project site presently used by members of the community for public recreation?  i. If Yes: explain:	□Yes☑No
d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site?  If Yes,  i. Identify Facilities:	∏Yes <b>∏</b> No
e. Does the project site contain an existing dam?  If Yes:  i. Dimensions of the dam and impoundment:  • Dam height:  feet	□Yes <b>☑</b> No
<ul> <li>Dam height: <ul> <li>Dam length:</li> <li>Surface area:</li> <li>Volume impounded:</li> <li>gallons OR acre-feet</li> </ul> </li> </ul>	
ii. Dam's existing hazard classification: iii. Provide date and summarize results of last inspection:	
f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility.	☐Yes <b>☑</b> No lity?
If Yes:  i. Has the facility been formally closed?	□Yes□ No
• If yes, cite sources/documentation:  ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:	
iii. Describe any development constraints due to the prior solid waste activities:	
g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? If Yes:	□Yes☑No
i. Describe waste(s) handled and waste management activities, including approximate time when activities occurr	red:
h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any	Yes No
remedial actions been conducted at or adjacent to the proposed site?  If Yes:  i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply:	□Yes□No
☐ Yes – Spills Incidents database       Provide DEC ID number(s):         ☐ Yes – Environmental Site Remediation database       Provide DEC ID number(s):         ☐ Neither database       Provide DEC ID number(s):	i i i i i i i i i i i i i i i i i i i
ii. If site has been subject of RCRA corrective activities, describe control measures:	
iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? If yes, provide DEC ID number(s): C734157, 734060, C734148, V00588, C734089	✓Yes□No
iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):	
C734157 - 400 Eric Blv. West Brownfield Cleanup Class A 734060 - NW Erie Blv. State Superfund class C C734148 - 500 E Program Class C V00588 - 432 North Franklin Voluntary Cleanup Program Class N C734089 - 432 North Franklin Stree Class C	rie Blv East Brownfield t Brownfield Program

	☐ Yes ✓ No
v. Is the project site subject to an institutional control limiting property uses?  • If yes, DEC site ID number:	
Describe the type of institutional control (e.g., deed restriction or easement):	
Describe any use limitations:	
<ul> <li>Describe any engineering controls:</li> <li>Will the project affect the institutional or engineering controls in place?</li> </ul>	
	☐ Yes ☐ No
• Explain:

### PARTS 2 AND 3 OF FULL EAF

Agency Use Only [If applicable]

## Full Environmental Assessment Form

Part 2 - Identification of Potential Project Impacts

101 North Salina Street Project: Date: February 25, 2025

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

### **Tips for completing Part 2:**

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1)  If "Yes", answer questions a - j. If "No", move on to Section 2.	✓NC		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d		
b. The proposed action may involve construction on slopes of 15% or greater.	E2f		
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a		
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a		
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1e		
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q		
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	Bli		
h. Other impacts:			

2. Impact on Geological Features			
The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)  If "Yes", answer questions a - c. If "No", move on to Section 3.	it <b>Z</b> NO		YES
If Tes, answer questions a - c. If two, move on to section 3.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached:	E2g		
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark.  Specific feature:	E3c		
c. Other impacts:			
3. Impacts on Surface Water  The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)  If "Yes", answer questions a - l. If "No", move on to Section 4.	✓NC	) [	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h		
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b		
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a		
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h		
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h		
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c		
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).			
of wastewater to surface water(s).	D2d		
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2d D2e		
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving			

D1a, D2d

k. The proposed action may require the construction of new, or expansion of existing,

wastewater treatment facilities.

l. Other impacts:			
4. Impact on groundwater  The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t)  If "Yes", answer questions a - h. If "No", move on to Section 5.	<b>☑</b> NO er.		YES
if Tes , unswer questions a n. if Two , move on to section 5.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact moccur
a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c		
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer.  Cite Source:	D2c		
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c		
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l		
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h		
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l		
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c		
h. Other impacts:			
5. Impact on Flooding  The proposed action may result in development on lands subject to flooding.  (See Part 1. E.2)  If "Yes", answer questions a - g. If "No", move on to Section 6.	<b>∠</b> NO		YES
	Relevant Part I Question(s)	No, or small impact may occur	Modera to large impact m occur
a. The proposed action may result in development in a designated floodway.	E2i		
b. The proposed action may result in development within a 100 year floodplain.	E2j		
c. The proposed action may result in development within a 500 year floodplain.	E2k		
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e		
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k		
f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?	E1e		

g. Other impacts:			
6. Impacts on Air  The proposed action may include a state regulated air emission source.  (See Part 1. D.2.f., D.2.h, D.2.g)  If "Yes", answer questions a - f. If "No", move on to Section 7.	✓NO		YES
If Tes , unswer questions a -y. If No , move on to section 7.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
<ul> <li>a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: <ol> <li>i. More than 1000 tons/year of carbon dioxide (CO<sub>2</sub>)</li> <li>ii. More than 3.5 tons/year of nitrous oxide (N<sub>2</sub>O)</li> <li>iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs)</li> <li>iv. More than .045 tons/year of sulfur hexafluoride (SF<sub>6</sub>)</li> <li>v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions</li> <li>vi. 43 tons/year or more of methane</li> </ol> </li> </ul>	D2g D2g D2g D2g D2g D2g		
b. The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	D2g		
c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g		
d. The proposed action may reach 50% of any of the thresholds in "a" through "c", above.	D2g		
e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.	D2s		
f. Other impacts:			
7. Impact on Plants and Animals The proposed action may result in a loss of flora or fauna. (See Part 1. E.2. If "Yes", answer questions a - j. If "No", move on to Section 8.	mq.)	□NO	<b>✓</b> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2o	Ø	
b. The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.	E2o	Ø	
c. The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2p	Ø	
d. The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal government.	E2p	Ø

Project : 101 North Salina Street

Date : February 25, 2025

# Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

### **Reasons Supporting This Determination:**

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where
  there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse
  environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

See attached Part 3 - Additional Information	
Determination of Significance - Type 1 and Unlisted	Actions
SEQR Status:  Unlisted

### **City of Syracuse Industrial Development Agency**

### 101 North Salina Street Project

#### FEAF Part 3 – Additional Information

By application dated October 17, 2024, 101 North Salina St, LLC (the "Company"), requested the City of Syracuse Industrial Development Agency undertake a project (the "Project") consisting of reconstruction/conversion of approximately 44,000 sq. ft. of vacant space in the two-story approximately 200,000 sq. ft. mixed-use building located on an approximately 4.14 acres of real property located at 101-239 North Salina Street (tax map no. 104.-08-01.0) in the City of Syracuse, New York into approximately 72 apartment units consisting of approximately 66 one bedroom units and 6 two bedroom units, interior mechanical system and structural upgrades and the construction or installation of amenities for residents, including but not limited to, a fitness center, bicycle storage, tenant storage and a community room.

.

1.) Impact on land – The proposed Project will not have an impact on land. The Project is expected to consist primarily of interior renovation with minor exterior work including window replacement, replacement of City sidewalk, replacement of exterior Building lighting and minor landscaping. No excavation is expected. In the unforeseen event of excavation, excavated materials will remain onsite. In the event contaminated soils are encountered, these soils will be handled in accordance with federal, state, and local regulations.

The duration of the Project is estimated at 14 months. Construction activities typically result in potential impacts associated with traffic, dust, stormwater, and noise. These potential impacts are minimized as a result of the following measures:

- The Company will be required to implement a maintenance and protection of traffic plan for use during construction. The plan will be reviewed and approved by the City of Syracuse.
- The Company will be required to implement best management practices for dust control.
- Stormwater impacts will be addressed by implementation of erosion and sediment controls during construction.
- The proposed Project will cause a temporary increase in ambient noise levels from the operation of construction equipment. Measures to minimize noise impacts during construction will include adherence to local ordinances for working hours and inspection of equipment for proper muffling.

As such, the impact on land associated with the Project is not considered a significant environmental impact.

- 2.) Impact on geological features The Project site does not contain known unique or unusual land forms (e.g. cliffs, dunes, minerals, fossils, caves). No impact to significant geological features will occur because of the proposed Project.
- 3.) Impacts on surface water The Project operation does not produce materials considered hazardous substances and use of such substances will occur in accordance with applicable law and regulation and are not expected to potentially contaminate local ground water supplies. Consequently, the Project is not expected to result in an adverse change in surface water quality or quantity.
- **4.)** Impact on groundwater The Project does not involve use or disposal of hazardous materials, or the bulk storage of petroleum or chemical products that could potentially contaminate local groundwater supplies. In addition, no change in drainage patterns, or increase in impervious surfaces is anticipated as a result of the Project. Therefore, no significant impact to the local aquifer is expected to occur as a result of the Project.
- 5.) Impact on flooding The proposed Project is not located in a floodway, the 100 Year Floodplain or the 500 Year Floodplain. The Project is not located over or immediately adjacent to a primary, principal or sole source aquifer. The Project will comply with New York State Department of Environmental Conservation General Permit for Stormwater Discharges from construction activity that covers the Project.

6.) Impacts on air – The U. S. Environmental Protection Act (USEPA), through the federal Clean Air Act (CAA), has established National Ambient Air Quality Standards (NAAQS) for six criteria pollutants: carbon monoxide (CO), sulfur dioxide (SO2), nitrogen dioxide (NO2), particulate matter (PM10 and PM2.5), ozone, and lead. An area that violates a national primary or secondary NAAQS for one or more of the USEPA designated criteria pollutants is referred to as non-attainment. A maintenance area is one that has previously been in violation of the NAAQS but has since implemented an avoidance plan and has had no additional violations over an extended period of time.

The Project is located in Onondaga County. According to the USEPA Green Book (current as of February 28, 2019), Onondaga County is currently in attainment for all criteria pollutants, except CO, which is listed as "maintenance". Based on a detailed review of the Green Book, Onondaga County was designated as a CO non-attainment area until 1992. Since 1993, the County has been in compliance (i.e., maintenance area) with the NAAQS for all criteria pollutants, including CO. An area that has remained in compliance with the NAAQS for an extended period of time is re-designated as "attainment".

According to both the NYSDEC and USEPA, Onondaga County is in full attainment with the CO NAAQS. Specifically, Onondaga County was designated as a maintenance area in 1993 and has not had any violations of the NAAQS since that time. NYSDEC met the requirements specified in two Maintenance Plans, each lasting a period of ten years. Therefore, the 20-year maintenance period is over and NYSDEC has met its obligations; Onondaga County is in attainment with the CO NAAQS.

Air emission sources require consistency with State and federal air quality standards. The New York air permitting program regulates sources of air pollution. The program is required under provisions set forth in the CAA and New York State regulation (6 NYCRR Part 201). NYSDEC Division of Air Resources administers the air program. The proposed Project does not include equipment that requires registration or permitting from New York State's air program.

- 7.) Impacts on plants and animals The proposed Project is located in an urban environment. Peregrine falcons are identified in the vicinity of the Project site. The proposed rehabilitation is not expected to affect the habitat of the peregrine falcon. No significant impact to plants and animals will occur as a result of the Project.
- **8.)** Impacts on agricultural resources The Project is not located in a New York State Agricultural District. No farmland soils occur within the proposed limits of disturbance. No significant impacts to agricultural resources will occur.
- **9.)** Impacts on aesthetic resources The Project site does not contain, and is not located adjacent to, identified scenic/aesthetic resources. Onondaga Lake is more than one mile away from the Project. The Project involves primarily interior renovation and minor exterior changes and no adverse impacts to the aesthetic resources associated with Onondaga Lake are expected to occur as a result of the Project.

- 10.) Impacts on historical and archeological resources The State Historic Preservation Office (SHPO) has conducted a review of the original rehabilitation plan for the Building consistent with Section 106 of the National Historic Preservation Act of 1966. In a letter dated December 4, 2018, the SHPO indicated that the rehabilitation of the Building would result in no significant impacts to historic properties including archeological and/or historic resources.
- 11.) Impacts on open space and recreation The proposed action will not result in a loss of recreational opportunities, and/or open space. There are no existing recreational opportunities on-site, and the site is not located in a designated municipal open space plan.
- 12.) Impacts on critical environmental areas No designated critical environmental areas occur within or immediately adjacent to the Project site. The current action will not involve impacts to designated critical environmental areas.
- *13.) Impacts on transportation* The proposed Project is not anticipated to involve a significant increase in existing traffic levels.
- 14.) Impacts on energy Electricity and natural gas in the Project location are supplied by National Grid. Water will be provided by the City of Syracuse's water system. Sewer service will be provided by the City of Syracuse and treated at the Metropolitan Syracuse Wastewater Treatment Plant.

Operation of the Project will result in increased use of electricity, natural gas, and/or water resources as well as increased discharge of wastewater into the sewer collection and treatment system. The Company has coordinated with the local utility providers regarding supply and availability of necessary services. Operation of the facility is not expected to exceed available natural resource or future energy supplies.

Additionally, construction and/or operation of the facilities would not involve a need for unusual materials or those in short supply. As with any construction project, there will be short-term increases in electrical and gasoline usage to power construction equipment and for worker travel.

### 15.) Impacts on noise, odor, and light

*Noise* - The proposed Project will cause a temporary increase in ambient noise levels from the operation of construction equipment. Measures to minimize noise impacts during construction will include adherence to local ordinances for working hours and inspection of equipment for proper muffling. Noise levels will generally return to pre-construction levels following completion of the Project.

*Odors* - The proposed Project will not cause an increase in odors.

*Light* –Lighting will not impact adjacent properties and will be dark sky compliant. Parking lot fixtures will comply with City of Syracuse regulations.

16.) Impact on Human Health – The proposed Project will not result in an impact to human

health from exposure to new or existing sources of contaminants. The Project operation does not use or produce materials considered hazardous substances, and therefore will not create a condition increasing the adjacent public's exposure to harmful chemicals.

- 17.) Consistency with community plans The action will not result in population growth in the City of Syracuse that exceeds 5%, or in increasing density that will impact existing infrastructure. The Project has been granted zoning variance to allow first floor apartment units. Given that material consistency with the City's requirements is expected, no significant impacts associated with community plans are anticipated.
- 18.) Consistency with community character The proposed action is consistent with the existing community character as described below:
  - The Project is located in an area with buildings of similar size and function.
  - The Project will not result in any impacts to historic structures.
  - It will not significantly increase the need for schools, parks, roads, infrastructure.
  - It will not result in a significant increase in the need for emergency services.
  - It will not result in any displacement of housing will occur.
