Beacon Armory LLC - Project Description

Beacon Armory LLC will re-purpose to mixed use of the Bentley Settle Building (Basement commercial tenant space formerly Empire Brewing Company, first floor commercial spaces and 5 floors residential on 2-6) a contributing building in the Armory Square Historic District recognized on the National Register of Historic Places. The project scope consists of 35,900 square feet above grade and an additional 7000 sq feet at the lower level. Approximately 25,000 sq feet will be divided into 30 residences. 5 2-bedroom residences of approximately 850 sq ft each and 25 1-bedroom residences ranging from 575 - 650 will occupy the upper 5 floors. These loft style apartments will be smartly finished and will incorporate the latest advances in urban style living but will leave intact the entirety of the historic fabric of the tallest building in the Armory. This development comes at a critical time for the property. The unfortunate demise of the buildings former anchor tenant, combine with a glut of office space inventory in the marketplace created a need to re evaluate the highest and best use for the building. With the onset of the Covid 19 Pandemic ownership arrived at an unenviable fulcrum. With only one commercial tenant occupying the entirety of the building a rededication to the redevelopment of this historic site was necessary. Work has begun on upgrading all building systems, preventative measures are being taken to insure the commercial spaces and facade do not suffer from deferred maintenance. Through a significant new round of cash investment by the principals along with traditional bank financing, Beacon Armory will deploy a nearly 4.5 million dollar program with local contractors and vendors to repair and needed facade work, Reconfiguration of the commercial spaces will present fresh and exciting floorplans that will attract the most sought after tenants in the marketplace. At least 50 new jobs should be generated through the new businesses that will find what they desire at the base of the Armory's most recognizable building. We ask SIDA to assist us in this endeavor. The funds we may receive will allow us to create a product we know both commercial and residential tenants will find valuable. Between the rising cost of materials (some of which have doubled and or tripled in recent months) labor shortages in the area and essential no active cash-flow from existing tenants, ownership humbly seeks SIDA's established benefits to insure that the beacon of the Armory can accommodate new business owners and urban dwellers .

The following is additional historic background on the Bentley Settle building. During World War II Bentley Settle and Co would be among those responsible for the oversight and distribution of rationed goods for the City of Syracuse. In more recent history, the Bentley Settle Building served as home to a group of artists and early pioneers of Armory Square. A group of free spirits, they created studios and lofts incubating a true artist colony. The artists of the Armory existed on the upper floors of the building until they accidentally set fire to their space. The artists went on to open Eureka Studios just a block away.

For the Bentley Settle Building it could have been the end of the road. The building remained empty and unprotected from the elements for years until a local Architect, Ed Riley, set his sights on his most aggressive project to date. In 1987 Riley secured funding from the State of New York and the National Historic Trust to completely renovate both buildings. Riley would go to save many other historic buildings in Syracuse and beyond including the seventy-five million dollar restoration of the Hotel Syracuse completed in 2018. The 1987 renovation of the Bentley Settle and Piper Phillips remains a significant advantage for ownership in its plans for the Bentley Lofts. The condition of the building, its sidewalk vaults and other major systems will spare significant "unseen" costs and allocate more of the budget to amenities. At the core of Syracuse nightlife and entertainment, The Bentley Settle building rises 6 floors at the center of the square. The landmark building demands glances upward along its fine brick work and verticality stressed by grouping windows under arches. A beautifully renovated lobby

and common corridor connects Walton Street to W Fayette Street. Here, another landmark, The Piper Phillips building, holds the fully leased result of the projects first phase, the Piper Phillips Residences and its eight unique urban homes. The Bentley Lofts, phase two of the project, will offer a mix of one and two bedroom homes with a distinctly urban edge. Massive hand hewn timbers support soaring ceilings and great windows that offer a variety of views that will never be taken for granted. But it is its enviable location that makes the Bentley Settle building and its thirty new loft residences a natural first choice for sophisticated yet affordable downtown living.
