SEQRA RESOLUTION

As a result of the public health emergency created by COVID-19, the Federal, State and local bans on meetings or gatherings, and pursuant to the Governor's Executive Order 202.1 issued on March 12, 2020 suspending the Open Meetings Law, as extended from time to time including September 2, 2021, the City of Syracuse Industrial Development Agency (the "Agency") held a meeting on the 19th day of October, 2021, at 8:00 a.m., local time, electronically which made available via Webex was at: https://syrgov.webex.com/syrgov/j.php?MTID=m86256fb4494b5a13bd03c80fd1c20630; (or by accessing the link on the Agency's website) and using meeting number 2333 181 9569 and password AgfSYdyJ732; or via telephone at (408) 418-9388 with access code: 2333 181 9569, in conjunction with the matter set forth below.

The meeting was called to order by the Chair and upon the roll being duly called, the following members were:

PRESENT VIA TELE/VIDEOCONFERENCE (in accordance with the Governor's Executive Order 202.1): Kathleen Murphy, Steven Thompson, Rickey T. Brown, Kenneth Kinsey, Dirk Sonneborn

THE FOLLOWING PERSONS WERE ALSO PRESENT VIA TELE/VIDEOCONFERENCE (in accordance with the Governor's Executive Order 202.1): Staff Present: Judith DeLaney, Susan Katzoff, Esq., Lori McRobbie and John Vavonese; Others Present: Timothy Lynn, Esq., Christopher Bianchi, Jeremy Thurston, Kevin McAuliffe, Esq., Milan Tyler, Esq., Lindsey Haubenreich, Esq., John Lenio, Scott Dumas, Esty Kohn, Megan Craig, Motty Spitzer, Deli Vargas, Khash Bayani, Phil Gardner, Matt Rayo

The following resolution was offered by Rickey T. Brown and seconded by Kenneth Kinsey:

RESOLUTION DETERMINING THAT THE UNDERTAKING OF A CERTAIN PROJECT AT THE REQUEST OF SYRACUSE BREAD FACTORY, LLC WILL NOT HAVE A SIGNIFICANT EFFECT ON THE ENVIRONMENT

WHEREAS, the City of Syracuse Industrial Development Agency (the "Agency") is authorized and empowered by Title 1 of Article 18-A of the General Municipal Law of the State of New York (the "State"), as amended, together with Chapter 641 of the Laws of 1979 of the State of New York, as amended from time to time (collectively, the "Act"), to promote, develop, encourage and assist in the acquiring, constructing, reconstructing, improving, maintaining, equipping and furnishing of industrial, manufacturing, warehousing, commercial, research and recreation facilities, for the purpose of promoting economically sound commerce and industry to advance the job opportunities, health, general prosperity and economic welfare of the people of the State and to improve their recreation opportunities, prosperity and standard of living; and

WHEREAS, Syracuse Bread Factory, LLC, or an entity to be formed (the "Company"), by application dated August 9, 2021 (the "Application"), requested the Agency undertake a project (the "*Project*") consisting of: (A)(i) the acquisition of an interest in approximately 1.81 acres of real property improved by an existing approximately 64,400 square foot building (the "Building"), located at 200 Maple St. & Washington St. (tax map no. 031.-14.04.0), 111 South Beech St. & Washington St. (tax map no. 031.07-01.0), 1419 East Washington St. (tax map no. 031.-07-02.0) and 1425 East Washington St. (tax map no. 031.-08-11.0), each in the City of Syracuse, New York (collectively, the "Land"), (ii) the reconstruction, renovation and completion of the Building to provide for: (a) approximately 18,700 sq. ft of residential space containing approximately 5 studio, 11 one-bedroom and 3 two-bedroom apartment units and an approximately 2,000 sq. ft. courtyard cut into the middle of the Building to provide for additional light to the units; (b) approximately 27,500 sq. ft. of commercial space to contain approximately 4,000 sq. ft. dedicated to approximately 12 art studios; approximately 12,500 sq. ft for commercial tenants; and approximately 11,000 sq. ft. for food and retail space; (c) the renovation of approximately 16,000 sq. ft to be used for various amenities including but not limited to, common areas, lobby, storage, lounge, gym, mailroom and mechanical spaces; and (d) the full restoration of the exterior of the Building; and surface parking to accommodate approximately 70 vehicles (collectively, the "Facility"), and (ii) the acquisition and installation in and on the Land and Facility of furniture, fixtures and equipment (the "Equipment" and together with the Land and the Facility, the "Project Facility"); (B) the granting of certain financial assistance in the form of exemptions from State and local sales and use tax and mortgage recording tax (in accordance with Section 874 of the General Municipal Law) (collectively the "Financial Assistance"); (C) the appointment of the Company or its designee as an agent of the Agency in connection with the acquisition, reconstruction, renovation and equipping of the Project Facility; and (D) the lease of the Land and Facility by the Agency pursuant to a lease agreement and the acquisition of an interest in the Equipment pursuant to a bill of sale from the Company to the Agency; and the sublease of the Project Facility back to the Company pursuant to a sublease agreement; and

WHEREAS, pursuant to State Environmental Quality Review Act and the regulations promulgated thereunder ("SEQRA"), the Agency is required to make a determination with respect to the environmental impact of any "action" (as defined by SEQRA) to be taken by the Agency and the approval of a project and grant of financial assistance constitute such an action; and

WHEREAS, to aid the Agency in determining whether undertaking the Project may have a significant impact upon the environment, the Company has prepared and submitted to the Agency Part 1 of a Full Environmental Assessment Form (the "EAF") with respect to the Project, a copy of which is attached hereto as Exhibit "A" and on file at the office of the Agency; and

WHEREAS, the Agency examined the EAF in order to classify the Project; and

WHEREAS, by resolution adopted August 17, 2021, the Agency classified the Project as a Type 1 Action and declared the intent of the Agency to be "Lead Agency" (as defined by

SEQRA) for the purposes of a conducting a coordinated environmental review pursuant to SEQRA; and

WHEREAS, by letter dated August 20, 2021, notice was given to each "involved agency" (as defined by SEQRA) identified by the Company of the Agency's declaration to act as Lead Agency and consent to such declaration has been received from each such involved agency; and

WHEREAS, as a result of its careful review and examination of the Project, the Agency finds that, on balance, and after careful consideration of all relevant Project documentation, it has more than adequate information to evaluate as required by SEQRA all of the relevant benefits and potential impacts of the Project; and

WHEREAS, the Agency has prepared Parts 2 and 3 of the EAF with respect to the Project, a copy of which is attached hereto as Exhibit "B" and made a part hereof, that summarize its consideration of potential impacts in accordance with SEQRA; and

NOW, THEREFORE, be it resolved by the members of the City of Syracuse Industrial Development Agency, as follows:

- (1) Based upon an examination of the EAF prepared and other information furnished by the Company, the criteria contained in 6 NYCRR §617.7(c), and based further upon the Agency's knowledge of the area surrounding the Project Facility, all the representations made by the Company in connection with the Project, and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings and determinations with respect to the Project pursuant to SEQRA:
- (a) The Project consists of the components described above in the second WHEREAS clause of this Resolution and constitutes a "project" as such term is defined in the Act;
 - (b) The Project constitutes a Type 1 Action;
- (c) The Agency declared itself Lead Agency with respect to a coordinated review of the Project pursuant to SEQRA;
- (d) The Project will not have a significant effect on the environment, and the Agency will not require the preparation of an Environmental Impact Statement with respect to the Project; and
- (e) As a consequence of the foregoing, the Executive Director of the Agency is hereby authorized to execute and cause publication of and distribution of this negative declaration in accordance with SEQRA.

- (2) A copy of this Resolution, together with the attachments hereto, shall be placed on file in the office of the Agency where the same shall be available for public inspection during business hours.
- (3) The Secretary of the Agency is hereby authorized and directed to distribute copies of this Resolution to the Company and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution.

The question of the adoption of the foregoing resolution was duly put to vote on a roll call, which resulted as follows:

The foregoing resolution was thereupon declared duly adopted.

STATE OF NEW YORK)
) SS.:
COUNTY OF ONONDAGA)

I, the undersigned Secretary of the City of Syracuse Industrial Development Agency, **DO HEREBY CERTIFY** that I have compared the annexed extract of the minutes of the meeting of the City of Syracuse Industrial Development Agency (the "Agency") held on October 19, 2021, with the original thereof on file in my office, and that the same (including all exhibits) is a true and correct copy of the proceedings of the Agency and of the whole of such original insofar as the same relates to the subject matters referred to therein.

I FURTHER CERTIFY that: (i) all members of the Agency had due notice of such meeting; (ii) pursuant to Section 104 of the Public Officers Law (Open Meetings Law), as temporarily amended by Executive Order 202.1 issued on March 12, 2020 ("EO 202.1"), as amended and extended from time to time, such meeting was open to the general public and public notice of the time and how to participate in such meeting was duly given in accordance with such Section 104 and EO 202.1; (iii) the meeting was in all respects duly held; and (iv) there was a quorum present throughout.

I FURTHER CERTIFY that, as of the date hereof, the attached resolution is in full force and effect and has not been amended, repealed or rescinded.

the Agency on $\frac{IN_{11/1/2021}}{II_{11/2021}}$. WHEREOF, I have hereunto set my hand and affixed the seal of

City of Syracuse Industrial Development Agency

DocuSigned by:

Rickey Brown, Secretary

(SEAL)

EXHIBIT "A"

PART 1 OF FULL EAF

Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

Name of Action or Project: Syracuse Bread Factory

alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions is	in square feet or acres:
:: W:11 the manner of exting course on month in disturbance to be the month in disturbance to	
ii. Will the proposed action cause or result in disturbance to bottom sediments? If Yes, describe:	□Yes□N
iv. Will the proposed action cause or result in the destruction or removal of aquatic vegetation?	☐ Yes ☐ N
If Yes:	
acres of aquatic vegetation proposed to be removed:	
expected acreage of aquatic vegetation remaining after project completion:	
• purpose of proposed removal (e.g. beach clearing, invasive species control, boat access):	
proposed method of plant removal:	
if chemical/herbicide treatment will be used, specify product(s):	
v. Describe any proposed reclamation/mitigation following disturbance:	
Will the managed estion use on exacts a new demand for water?	
Will the proposed action use, or create a new demand for water? Yes:	✓ Yes
i. Total anticipated water usage/demand per day:	
ii. Will the proposed action obtain water from an existing public water supply?	∠ Yes
Yes:	
Name of district or service area: Syracuse City Water	
 Does the existing public water supply have capacity to serve the proposal? 	✓ Yes 🔲 🛚
• Is the project site in the existing district?	∠ Yes □ 1
 Is expansion of the district needed? 	☐ Yes ☐ 1
 Do existing lines serve the project site? 	✓ Yes 🗆 1
ii. Will line extension within an existing district be necessary to supply the project? EYes:	□Yes □N
Describe extensions or capacity expansions proposed to serve this project:	
Source(s) of supply for the district:	
iv. Is a new water supply district or service area proposed to be formed to serve the project site? 5. Yes:	☐ Yes☐N
Applicant/sponsor for new district: Date application submitted or anticipated:	
Proposed source(s) of supply for new district:	
v. If a public water supply will not be used, describe plans to provide water supply for the project:	
i. If water supply will be from wells (public or private), what is the maximum pumping capacity:	gallons/minute.
. Will the proposed action generate liquid wastes?	✓ Yes □N
Yes:	
i. Total anticipated liquid waste generation per day: TBD (pend. tenants) gallons/day	
ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, descri	
approximate volumes or proportions of each):	
nitary wastewater, stormwater	
i. Will the proposed action use any existing public wastewater treatment facilities?	∠ Yes □N
If Yes:	
Name of wastewater treatment plant to be used: Metropolitan Syracuse Wastewater Treatment Plant	Ţ
Name of district: <u>City of Syracuse</u>	
 Does the existing wastewater treatment plant have capacity to serve the project? Is the project site in the existing district? 	∠ Yes □N ∠ Yes □N
• Is the project site in the existing district?	MZIYesi IN

uSign Envelope ID: CFB6B229-1303-4585-A6A5-9591CEF0FDDA	
 Do existing sewer lines serve the project site? 	∠ Yes No
 Will a line extension within an existing district be necessary to serve the project? 	□Yes ☑ No
If Yes:	
Describe extensions or capacity expansions proposed to serve this project:	
<i>iv.</i> Will a new wastewater (sewage) treatment district be formed to serve the project site?	□Yes□No
If Yes:	
Applicant/sponsor for new district:	
Date application submitted or anticipated:	
What is the receiving water for the wastewater discharge?	
v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including speci	fying propose
receiving water (name and classification if surface discharge or describe subsurface disposal plans):	
vi. Describe any plans or designs to capture, recycle or reuse liquid waste:	
Planning for a partial green roof on building, porous pavement on site	
e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point	□Yes□No
sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point	
source (i.e. sheet flow) during construction or post construction?	
If Yes:	
i. How much impervious surface will the project create in relation to total size of project parcel?	
Square feet or acres (impervious surface) Square feet or acres (parcel size)	
ii. Describe types of new point sources.	
groundwater, on-site surface water or off-site surface waters)?	
If to surface waters, identify receiving water bodies or wetlands:	
Will stormwater runoff flow to adjacent properties?	□Yes□No
<i>iv.</i> Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?	
f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel	 ☐Yes ☐No
combustion, waste incineration, or other processes or operations?	
If Yes, identify:	
i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)	
ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)	
iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)	
g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit,	□Yes□No
or Federal Clean Air Act Title IV or Title V Permit?	
If Yes:	
i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet	□Yes□No
ambient air quality standards for all or some parts of the year)	
ii. In addition to emissions as calculated in the application, the project will generate:	
•Tons/year (short tons) of Carbon Dioxide (CO ₂)	
•Tons/year (short tons) of Nitrous Oxide (N ₂ O)	
•Tons/year (short tons) of Perfluorocarbons (PFCs)	
 Tons/year (short tons) of Perfluorocarbons (PFCs) Tons/year (short tons) of Sulfur Hexafluoride (SF₆) Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs) 	

_Tons/year (short tons) of Hazardous Air Pollutants (HAPs)

buSign Envelope ID: CFB6B229-1303-4585-A6A5-9591CEF0FDDA h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants,

If Yes: i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred by the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? If Yes: i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply: Yes – Spills Incidents database Provide DEC ID number(s): 2008910	□ Yes□ No
If Yes: i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred. h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? If Yes: i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply: ☑ Yes − Spills Incidents database ☐ Provide DEC ID number(s): ☐ Provide DEC ID number(s): ☐ Provide DEC ID number(s):	□ Yes□ No
g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? If Yes: i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred by the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? If Yes: i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply: Yes – Spills Incidents database Provide DEC ID number(s): 2008910	□ Yes□ No
g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? If Yes: i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred by the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? If Yes: i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply: Yes – Spills Incidents database Provide DEC ID number(s): 2008910 Provide DEC ID number(s):	□Yes□No
g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? If Yes: i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? If Yes: i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply: Yes – Spills Incidents database Provide DEC ID number(s): 2008910 Yes – Environmental Site Remediation database Neither database	□Yes□No
g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? If Yes: i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred by the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? If Yes: i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? EXHIBIT "B"

PARTS 2 AND 3 OF FULL EAF

Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

oject: Syracuse Bread Factory Project

Project : Syracuse Bread Factory Project

Date : October 19, 2021

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1) If "Yes", answer questions a - j. If "No", move on to Section 2.	Z NC		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d		
b. The proposed action may involve construction on slopes of 15% or greater.	E2f		
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a		
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a		
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1e		
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q		
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	B1i		
h. Other impacts:			

2. Impact on Geological Features The proposed action may result in the modification or destruction of, or inhib access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g) If "Yes", answer questions a - c. If "No", move on to Section 3.	it √ NO		YES
ij Tes , unswer questions a e. ij Tio , more on to sectioner	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached:	E2g		
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:	ЕЗс		
c. Other impacts:			
3. Impacts on Surface Water The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h) If "Yes", answer questions a - l. If "No", move on to Section 4.	✓NO		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h		
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b		
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a		
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h		
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h		
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c		
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d		
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e		
i. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.	E2h		
j. The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h		
k. The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.	D1a, D2d		

1. Other impacts:			
4. Impact on groundwater The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t)	√ NO er.	Y	ES
If "Yes", answer questions a - h. If "No", move on to Section 5.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c		
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source:	D2c		
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c		
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l		
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h		
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l		
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c		
h. Other impacts:			
5. Impact on Flooding The proposed action may result in development on lands subject to flooding. (See Part 1. E.2)	. IN) [YES
If "Yes", answer questions a - g. If "No", move on to Section 6.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in development in a designated floodway.	E2i		
b. The proposed action may result in development within a 100 year floodplain.	E2j		
c. The proposed action may result in development within a 500 year floodplain.	E2k		
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e		
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k		
f. If there is a dam located on the site of the proposed action, is the dam in need of repair or upgrade?	ir, Ele		

g. Other impacts:			
6. Impacts on Air The proposed action may include a state regulated air emission (See Part 1. D.2.f., D.2.h, D.2.g) If "Yes", answer questions a - f. If "No", move on to Section	*) [YES
g 200 , omanie que a marie de la companya de la com	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
 a. If the proposed action requires federal or state air emission permits, the also emit one or more greenhouse gases at or above the following leventia. More than 1000 tons/year of carbon dioxide (CO₂) ii. More than 3.5 tons/year of nitrous oxide (N₂O) iii. More than 1000 tons/year of carbon equivalent of perfluorocarbotive. More than .045 tons/year of sulfur hexafluoride (SF₆) v. Project : Syracuse Bread Factory Project

Date: October 19, 2021

Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact
 occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
 occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where
 there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse
 environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Syracuse Bread Factory Project FEAF Part 3 – Additional Information

Syracuse Bread Factory, LLC, or an entity to be formed (the "Company"), by application dated August 9, 2021 (the "Application"), requested the Agency undertake a project (the "Project") consisting of:

- (i) the acquisition of an interest in approximately 1.81 acres of real property improved by an existing approximately 64,400 square foot building (the "*Building*"), located at 200 Maple St. & Washington St. (tax map no. 031.-14.04.0), 111 South Beech St. & Washington St. (tax map no. 031.07-01.0), 1419 East Washington St. (tax map no. 031.-07-02.0) and 1425 East Washington St. (tax map no. 031.-08-11.0), each in the City of Syracuse, New York (collectively, the "*Land*"),
- (ii) the reconstruction, renovation and completion of the Building to provide for: (a) approximately 18,700 sq. ft of residential space containing approximately 5 studio, 11 one-bedroom and 3 two-bedroom apartment units and an approximately 2,000 sq. ft. courtyard cut into the middle of the Building to provide for additional light to the units; (b) approximately 27,500 sq. ft. of commercial space to contain approximately 4,000 sq. ft. dedicated to approximately 12 art studios; approximately 12,500 sq. ft for commercial tenants; and approximately 11,000 sq. ft. for food and retail space; (c) the renovation of approximately 16,000 sq. ft to be used for various amenities including but not limited to, common areas, lobby, storage, lounge, gym, mailroom and mechanical spaces; and (d) the full restoration of the exterior of the Building; and surface parking to accommodate approximately 70 vehicles (collectively, the "Facility"), and
- (iii) the acquisition and installation in and on the Land and Facility of furniture, fixtures and equipment (the "*Equipment*" and together with the Land and the Facility, the "*Project Facility*").

1.) Impact on land – The proposed Project will not have an impact on land. In the event of excavation, excavated materials will remain onsite. In the event contaminated soils are encountered, these soils will be handled in accordance with federal, state, and local regulations.

Construction activities typically result in potential impacts associated with traffic, dust, stormwater, and noise. These potential impacts are minimized as a result of the following measures:

- The Company will be required to implement a maintenance and protection of traffic plan for use during construction. The plan will be reviewed and approved by the City of Syracuse.
- The Company will be required to implement best management practices for dust control.
- Stormwater impacts will be addressed by implementation of erosion and sediment controls during construction.
- The proposed Project will cause a temporary increase in ambient noise levels from the operation of construction equipment. Measures to minimize noise impacts during construction will include adherence to local ordinances for working hours and inspection of equipment for proper muffling.

As such, the impact on land associated with the Project is not considered a significant environmental impact.

- **2.)** Impact on geological features The Project site does not contain known unique or unusual landforms (e.g. cliffs, dunes, minerals, fossils, caves). No impact to significant geological features will occur because of the proposed Project.
- 3.) Impacts on surface water Project site improvements include improvements to existing impervious surfaces including sidewalk replacements. The Project operation does not produce materials considered hazardous substances and use of such substances will occur in accordance with applicable law and regulation and are not expected to potentially contaminate local ground water supplies. Consequently, the Project is not expected to result in an adverse change in surface water quality or quantity.
- **4.)** Impact on groundwater The Project is not located within the footprint of a sole source, or primary aquifer. The Project does not involve use or disposal of hazardous materials, or the bulk storage of petroleum or chemical products that could potentially contaminate local groundwater supplies. In addition, no change in drainage patterns, or increase in impervious surfaces is anticipated as a result of the Project. Therefore, no significant impact to the local aquifer is expected to occur as a result of the Project.
- 5.) Impact on flooding The proposed Project is not located in a floodway, the 100 Year Floodplain or the 500 Year Floodplain. The Project is not located over or immediately adjacent to a primary, principal or sole source aquifer. The Project will comply with New York State Department of

Environmental Conservation General Permit for Stormwater Discharges from construction activity that covers the Project. As a result, the Project is expected to improve existing conditions rather than result in a substantial increase in the potential for erosion, flooding, leaching or drainage problems.

6.) Impacts on air – The U. S. Environmental Protection Act (USEPA), through the federal Clean Air Act (CAA), has established National Ambient Air Quality Standards (NAAQS) for six criteria pollutants: carbon monoxide (CO), sulfur dioxide (SO2), nitrogen dioxide (NO2), particulate matter (PM10 and PM2.5), ozone, and lead. An area that violates a national primary or secondary NAAQS for one or more of the USEPA designated criteria pollutants is referred to as non-attainment. A maintenance area is one that has previously been in violation of the NAAQS but has since implemented an avoidance plan and has had no additional violations over an extended period of time.

The Project is located in Onondaga County. According to the USEPA Green Book (current as of February 28, 2019), Onondaga County is currently in attainment for all criteria pollutants, except CO, which is listed as "maintenance". Based on a detailed review of the Green Book, Onondaga County was designated as a CO non-attainment area until 1992. Since 1993, the County has been in compliance (i.e., maintenance area) with the NAAQS for all criteria pollutants, including CO. An area that has remained in compliance with the NAAQS for an extended period of time is re-designated as "attainment".

According to both the NYSDEC and USEPA, Onondaga County is in full attainment with the CO NAAQS. Specifically, Onondaga County was designated as a maintenance area in 1993 and has not had any violations of the NAAQS since that time. NYSDEC met the requirements specified in two Maintenance Plans, each lasting a period of ten years. Therefore, the 20-year maintenance period is over and NYSDEC has met its obligations; Onondaga County is in attainment with the CO NAAQS.

Air emission sources require consistency with State and federal air quality standards. The New York air permitting program regulates sources of air pollution. The program is required under provisions set forth in the CAA and New York State regulation (6 NYCRR Part 201). NYSDEC Division of Air Resources administers the air program. The proposed Project does not include equipment that requires registration or permitting from New York State's air program.

- 7.) Impacts on plants and animals The proposed Project is located in an urban environment. Peregrine falcons are identified in the vicinity of the Project site. The proposed rehabilitation is not expected to affect the habitat of the peregrine falcon. For example, the building exterior and trees or vegetation located on the site will not be disturbed. No significant impact to plants and animals will occur as a result of the Project.
- **8.)** Impacts on agricultural resources The Project is not located in a New York State Agricultural District. No farmland soils occur within the proposed limits of disturbance. No significant impacts to agricultural resources will occur.
- 9.) Impacts on aesthetic resources The Project site does not contain, and is not located

adjacent to, identified scenic/aesthetic resources. There are no officially designated federal, state, or local scenic or aesthetic resources within the vicinity of the property.

- 10.) Impacts on historical and archeological resources The State Historic Preservation Office (SHPO) has conducted a review consistent with New York State Preservation Act of 1980 (Section 14.09 of the New York State Parks, Recreation and Historic Preservation Law). In a letter dated October 5, 2021, SHPO indicates that it consents to the Agency acting as lead agent, and advised that if the Project involves state or federal funding, permitting or licensing, it will undergo a more rigorous review for potential impacts; the Project will be seeking Historic Tax Credits, thus SHPO will undertake a rigorous review in accordance with the state or National Historic Preservation Laws. The Project will not result in any negative impacts to Historic and Archeological Resources.
- 11.) Impacts on open space and recreation The proposed action will not result in a loss of recreational opportunities, and/or open space. There are no existing recreational opportunities on-site, and the site is not located in a designated municipal open space plan.
- 12.) Impacts on critical environmental areas No designated critical environmental areas occur within or immediately adjacent to the Project site. The current action will not involve impacts to designated critical environmental areas.
- 13.) Impacts on transportation The proposed Project is not anticipated to involve a significant increase in existing traffic levels.
- 14.) Impacts on energy Electricity and natural gas in the Project location are supplied by National Grid. Water will be provided by the City of Syracuse's water system. Sewer service will be provided by the City of Syracuse and treated at the Metropolitan Syracuse Wastewater Treatment Plant.

Operation of the Project will result in increased use of electricity, natural gas, and/or water resources as well as increased discharge of wastewater into the sewer collection and treatment system. The Company has coordinated with the local utility providers regarding supply and availability of necessary services. Operation of the facility is not expected to exceed available natural resource or future energy supplies.

Additionally, construction and/or operation of the facilities would not involve a need for unusual materials or those in short supply. As with any construction project, there will be short-term increases in electrical and gasoline usage to power construction equipment and for worker travel.

15.) Impacts on noise, odor, and light

Noise - The proposed Project will cause a temporary increase in ambient noise levels from the operation of construction equipment. Measures to minimize noise impacts during construction will include adherence to local ordinances for working hours and inspection of equipment for proper muffling. Noise levels will generally return to pre-construction levels following

completion of the Project.

Odors - The proposed Project will not cause an increase in odors.

Light –Lighting will not impact adjacent properties and will be dark sky compliant. Parking lot fixtures will comply with City of Syracuse regulations.

- 16.) Impact on Human Health The proposed Project will not result in an impact to human health from exposure to new or existing sources of contaminants. The Project operation does not use or produce materials considered hazardous substances, and therefore will not create a condition increasing the adjacent public's exposure to harmful chemicals.
- 17.) Consistency with community plans The action will not result in population growth in the City of Syracuse that exceeds 5%, or in increasing density that will impact existing infrastructure. The Project does not require a change in zoning. Given that material consistency with the City's requirements is expected, no significant impacts associated with community plans are anticipated.

In summary, the proposed Project will not result in the following:

- An increase in population within the City of Syracuse.
- A change in zoning or existing land use plans.
- A change in the density of development that would exceed the capacity of existing infrastructure.
- Induced socioeconomic impacts from residential or commercial development.
- 18.) Consistency with community character The proposed action is consistent with the existing community character as described below:
 - The Project is located in an area with buildings of similar size and function.
 - It will not significantly increase the need for schools, parks, roads, infrastructure.
 - It will not result in a significant increase in the need for emergency services.
 - It will not result in any displacement of housing will occur.
