

# SYRACUSE YOUTH ADVISORY COUNCIL

## WHAT IS SYRACUSE YOUTH ADVISORY COUNCIL?

The Syracuse Common Council has created a Youth Advisory Council (YAC) to increase civic education and engage Syracuse young people in local and state government. In collaboration with the Syracuse City School District, the Council has created a four-day hands-on experience where students will learn about local and state government and engage with community and elected leaders. As a final task, students will identify issues in the City of Syracuse and develop a plan to host a city forum of elected officials. Students demonstrate their understanding of the issues through participation in the city forum with city and community leaders.
