INTRODUCTION

The purpose of this ADA Transition Plan is to ensure that the City of Syracuse creates reasonable, accessible paths of travel in the public right-of-way for everyone, including people with disabilities. Specifically, the plan will address curb ramps and crossings at intersections and sidewalks* (*refer to Attachment A; detailing sidewalk responsibility per Charter) as they relate to ADA standards. ADA compliant accessibility is not only for individuals with mobility disabilities, but also for individuals with needs related to speech, cognitive, vision, and hearing disabilities.

The City of Syracuse has already taken steps to improve the accessibility of its sidewalks, curb ramps, and crossings and is committed to improving the accessibility of their pedestrian facilities.

The ADA Transition Plan identifies physical barriers and prioritizes improvements that should to be made throughout the City. This Transition Plan describes the plans, policies and programs to enhance the overall pedestrian accessibility.

CITY OF SYRACUSE SIDEWALK POLICY

The City of Syracuse recognized the importance of Accessibility early, adopting in 1974 as part of the City Charter; General Ordinance No. 29-1974, Sec. 24-39.1. – Sidewalk construction to facilitate use by handicapped persons, which states *“A sidewalk hereafter constructed or reconstructed on public property for public use within the city of Syracuse, or a person, firm, corporation, nonprofit corporation or organization, shall be constructed in a manner that will facilitate use by physically handicapped persons, At points of intersections between pedestrian and motorized lines of travel, and at other points where necessary to avoid abrupt changes in grade, a sidewalk shall slope gradually to street level so as to provide an uninterrupted line of travel. The city engineer shall prescribe standards of slope gradient, width and slip-resistant qualities which will assure that a sidewalk will accommodate a person in a wheelchair or other handicapped, persons. The city engineer may waive the aforementioned requirements if, in his opinion, good engineering practice requires such work not be performed at an intersection, and if, in his opinion, such construction creates a safety hazard.”*

Since the 1980’s, the City of Syracuse, has had an active annual Corner Replacement Program to replace or add curb ramps at intersections throughout the City.

The maintenance and reconstruction of sidewalks in the City; falls under the responsibility of the adjacent property owner as defined in Chapter 24 of the City Charter (Sec. 24-30, Sec. 24-37, Sec. 24-39). The City Department of Public Works responds to resident complaints on sidewalk condition and issues a condemnation notice to the applicable property owner. A sidewalk replacement permit (per Sec. 24-37 of the Charter) is required to reconstruct any sidewalk; this permit is issued by the City. The permit and conditions of construction use and reference applicable ADA standards (refer to Attachment B for permitting documentation).

The City of Syracuse has offered an annual program (since the 1980’s) to residents to replace their sidewalk and add the cost to their taxes through a City administered construction contract (optional,

residents can replace their sidewalk at their own expense). The City's current sidewalk program contract references the applicable NYSDOT 608 Standard Sheets. The City is responsible to replace and repair sidewalk adjacent to City owned land (i.e. parks) and does undertake general sidewalk repairs in the City R.O.W. as required under the Federal Aid funded Projects process, as applicable.

TRANSITION PLAN HISTORY AND OVERVIEW

In 2020, the City of Syracuse completed its ADA Transition Plan. As stated above under the City's Sidewalk Policy, the City has had an active Corner & Sidewalk Replacement Program and continues to upgrade required facilities in the City Right of Way annually. The plan is to demonstrate the continued progress by the Municipality to make the City's pedestrian facilities in the public right-of-way reasonably accessible for all persons.

LEGAL REQUIREMENTS

The federal legislation, known as the American with Disabilities Act (ADA), enacted on July 26, 1990, provides comprehensive civil rights protections to persons with disabilities in the areas of employment, state and local government services, and access to public accommodations, transportation, and telecommunications.

Title II specifically applies to "*public entities*" (state and local governments) and the programs, services, and activities they deliver. Title II, Article 8, requires public entities to take several steps designed to achieve compliance. The plan shall, at a minimum include:

- A list of the physical barriers and their locations in a public entity's facilities that limit the accessibility of its programs, activities, or services to individuals with disabilities.
- A detailed outline of the methods to be utilized to remove these barriers and make the facilities accessible.
- The schedule for taking the necessary steps to achieve compliance with Title II.
- Public complaint/grievance procedure.
- The name/position of the ADA Coordinator and/or official responsible for the plan's implementation.

Transition plans provide a method for a public entity to schedule and implement ADA required improvements to existing streets and sidewalks. Before a transition plan can be developed, an inventory of the current curb ramps and sidewalks must be developed

IDENTIFIED OBSTACLES TO THE PUBLIC RIGHT-OF-WAY

The City has a two-tiered system to identify and assess obstacles in the public right of way: a Preliminary Evaluation and a Detailed Evaluation. The barriers used in the evaluations are based on the Proposed Accessibility Guidelines for Pedestrian Facilities in Prepared by the Public Right-of-Way (ADA Guidelines) from the U.S. Access Board.

Preliminary Evaluation

The first tier is a Preliminary Evaluation of the intersections and connecting sidewalk segments. This initial evaluation includes searching and visually checking the street network to identify deficiencies in sidewalks and intersections. The purpose of this evaluation is to determine which intersections & sidewalk segments are obviously non-compliant with the ADA Guidelines and to get a comprehensive overview of the complete pedestrian network. The preliminary inventory evaluates four (4) criteria for curb ramps and three (3) criteria for sidewalks:

Curb Ramps

1. Is a curb ramp required?
2. Does the curb ramp have a color contrasting detectable warning?
3. Does the curb ramp have a clear landing at the top of the ramp?
4. Is surface of ramp and landing smooth without cracking or heaving?

Sidewalks **

1. Is there a continuous clear space pedestrian access?
2. Does the sidewalk appear to provide adequate passing zones?
3. Does the sidewalk appear to be smooth without grade breaks?

When required, the Preliminary Evaluation (e.g. utilizes *aerial and street-level photography* to view each sidewalk and intersection. Any mapping tool application (e.g. *google streets, etc.*) is utilized and data is entered in ESRI GIS. The criteria used can be seen on these (e.g., *aerials*) and are key design components to determine ADA compliance. (**As stated earlier in the report, general sidewalk maintenance & replacement is the responsibility of the homeowner per City Charter, however sidewalk replacement undertaken by a homeowner in the City Right-of-Way is subject to the required ADA standards (refer to Attachment B)). If the curb ramps and sidewalks do not meet the criteria, then that intersection does not need further evaluation because it is obviously non-complaint with the ADA Guidelines. If it did meet the criteria, then that intersection would be "*potentially compliant*" and would need a Detailed Evaluation to determine if it fully complies with the ADA Guidelines.

Detailed Evaluation

The second tier is a Detailed Evaluation of the intersections & sidewalk segments identified as "*potentially compliant*" during the Preliminary Evaluation. This requires a site visit to measure specific physical attributes, such as width, running slope, and gaps in the curb ramp or sidewalk, to determine compliance with the identified ADA barriers. These evaluations result in a detailed understanding of the ADA barriers at the intersection. Detailed evaluations are conducted as part of a planned & funded improvement project (mill & pave, curb ramp replacement or similar) and is

an ongoing process. Deficiencies addressed are updated in the intersection database. In addition detailed evaluations of residential sidewalks can occur under the Condemnation Process, please refer to Attachment B. (**Note: Preliminary and detailed evaluation of sidewalks is performed on segments which are in proximity/forming part of the ramp (accessible crossing) at the intersection (or curb), as general sidewalk replacement is the responsibility of the resident/homeowner, except as required.)

METHODS TO REMOVING BARRIERS — POLICIES & PRIORITIES

The City utilizes many different approaches to removing barriers in the public right of-way, including proactively identifying and eliminating the barrier, responding to public complaints and ensuring the appropriate design and build-out of new construction following the most recent design guidelines.

Barrier Removal Priorities

The City bases barrier removal priorities on two factors: location and the accessibility condition of the intersection.

Location Priority

According to the proposed ADA design guidelines, " *the U.S. Department of Justice (DOJ) regulation imposes a specific construction requirement...specifies a priority for locating (curb ramps) at State and local government offices and facilities; transportation; places of public accommodation; places of employment; and other locations.*" Following this guidance, the City identified its location priority as follows:

- Intersections serving local government facilities (e.g. City offices, Schools, Community Centers etc.)
- Intersections serving commercial and employment centers (e.g. Central Business District, Hospitals, University Areas)
- Intersections serving other areas, (e.g., parks and historic sites).

Accessibility Condition

Using the data from the Preliminary Evaluation and the Detailed Evaluation, an accessibility condition rating can be determined. The City of Syracuse uses the NYSDOT ratings and definitions to assess the condition of each sidewalk, curb ramp or crosswalk feature (Refer to Attachment C).

- **Rating 1** - Not Applicable: A facility not considered to require accessibility, for example, limited access highways, no sidewalk present.
- **Rating 2** - Not Accessible: Significant discontinuity such as steps, no ramps, more than 100 feet of unpaved walkway, heaving, vertical displacement, other severe distress, flooding.
- **Rating 3** - Partially Accessible: Not designed to current standards, for example, problems with geometry of sidewalks, ramps and landings, no detectable warnings, handrails.
- **Rating 4** - Accessible: May need additional improvements, such as no detectable warnings at curb ramp locations, insufficient width.
- **Rating 5** - Fully Accessible: Designed to current standards, presence of detectable warnings at curb ramp locations.

Priority Rank

In order to determine the overall priority of an intersection, or Priority Rank, the City uses the following matrix to match the location priority to the Rating Grade.

Rating Grade	Location Priority		
	1	2	3
	Locations serving eg. City facilities, school	Locations serving eg. Commercial & Employment Centers	Locations serving Other Areas
2	1	2	3
3	1	2	3
4	1	2	3
5	1	2	3

Priority Rank Levels		
High	Medium	Low

The City determines the priority of improvements by identifying which of the groupings are high, medium or low priorities. (Refer to Attachment D for a listing of the intersections/ramps and associated ratings and other data.)

Summary: The City of Syracuse identified 6733 curb ramps, rating 41% at either 5 or 4, with only 22% being rated as 2. Based on the matrix above and location addressing ramps within this 22% will be a key priority for the City of Syracuse.

As stated earlier in this report the property owner is responsible for sidewalk maintenance and replacement in the City Right-of-Way. The Syracuse Metropolitan Transportation Council (SMTC) prepared a draft map (2012) of sidewalk locations throughout the City which is included for informational purposes in this report (refer to Attachment B).

NEW CONSTRUCTION & ALTERATIONS

In order to ensure the correct design of curb ramps, sidewalks, and crosswalks in new construction and alterations, the City of Syracuse follows the Americans with Disabilities Act Accessibility Guidelines for Buildings and Facilities (ADAAG) (www.access-board.gov) as supplemented by the 2011 Proposed Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way (ADA Guidelines). These are the primary regulatory standards that govern the design and construction of all pedestrian facilities in all Department projects. It is important to note that in alteration projects, whenever pedestrian facilities cannot fully meet the standards outlined in the ADA Guidelines, a determination of each structural impracticability or technical infeasibility must be thoroughly documented in the permanent project record. See HDM Section 18.6.1.2 for further information. The City also uses & references the NYSDOT Standards for the construction of new curb ramps and sidewalks.

SCHEDULE

As opportunity allows, the City of Syracuse will make efforts to improve the ADA Accessibility of pedestrian facilities in the public right-of-way. Compliance is required to the extent practicable within the scope of the project. There will be times when it is technically impractical to provide full compliance with the guidelines: for example, if clear space at the top of the ramp is obstructed by a building or the slope of a hill is so extreme as to prevent a reasonable slope for a ramp in both directions. The inventory process may not account for such situations and could show a high-priority rating when all practical actions have been taken.

Like many municipalities, the City of Syracuse is fiscally constrained, with funding for street reconstruction being limited. However the City makes efforts to improve ADA accessibility of pedestrian facilities in the Right-of Way as available funding allows. Currently the City improves ADA accessibility as follows:

- Dept. of Public Works Street Reconstruction: mill & pave of city streets under which City replaces corners & crosswalks within limits to compliance.
- Dept. of Public Works Sidewalk & Curbing Contract: City replaces corners & sidewalks to compliance (sidewalk: assessable program to fund/assist residents with reconstruction cost)
- Federal Aid: Project/fund specific allowing reconstruction of pedestrian facilities in the R.O.W. to compliance
- Permitting: Private Utility & Development construction that disturbs non-compliant facilities are required to reconstruct facilities to compliance.

In 2019, the City of Syracuse in collaboration with The Syracuse Metropolitan Transportation Council (SMTTC) created a road rating map based on NYSDOT ratings scale classification. The map will be used to guide road reconstruction project priorities going forward. Based on the construction & funding opportunities listed above, it will likely take several years to bring all required ADA accessible facilities in the Right of Way into compliance.

PUBLIC COMPLAINT PROCESS

The public complaint process is an integral part of this Transition Plan. Public complaints or requests may often drive the prioritization of improvements. To file a complaint or a request regarding accessibility of a sidewalk or curb ramp, please refer to the grievance form contained in Attachment E, or contact the City of Syracuse ADA Coordinator, (e.g., in writing or electronically) and describe the issue in detail, including the location. The ADA Coordinator will route this information to the appropriate department of the Municipality's for inspection and possible action. That department will then respond to the ADA Coordinator with its findings, and the ADA Coordinator will record the formal response and reply to the complainant/requestor. All complaints or requests will be kept on file and will include the response.

Responsible Individual

The official responsible for the implementation of the ADA Transition Plan is the City Engineer in cooperation with the Commissioner of the Department of Public Works.

Mary E. Robison, P.E., City Engineer

Phone: (315) 448-8200

E-mail: mrobison@syrgov.net

Address: Dept. of Engineering, Room 401, 233 E. Washington St., Syracuse NY 13202

Jeremy Robinson, Commissioner (DPW)

Phone: 316-448-8576

E-mail: jrobinson@syrgov.net

Address: 1200 Canal St. Extension, Syracuse, Syracuse, NY 13210

Per the Public Complaint Process outlined above, the City of Syracuse's ADA Coordinator is Bianca Tearney, Multi-Cultural Affairs/Diversity Specialist

Phone: (315) 448-8781

E-mail: btearney@syrgov.net

Address: Personnel and Labor Relations, 233 East Washington Street, Syracuse, NY 13202

It is important to note that the individual serving as the Responsible Individual or ADA Coordinator may change throughout the life of this plan as these individuals acting in the positions change over time.

Public Input (to be updated)

The ADA requires that there is an opportunity for the public to provide input on the Transition Plan. To meet that requirement, the City of Syracuse advertised the draft ADA plan on the City's website & invited public comment. In addition the public can attend the City Council meeting in which this ADA Transition Plan was approved and adopted (INSERT DATE OF MEETNG). Comments and suggestions regarding the plan were then addressed in advance of this plan's adoption (refer to Attachment E for Information on the draft ADA public comment process).

ATTACHMENT A:

City Charter (City of Syracuse, Sidewalk Policy)

ARTICLE 7. - OTHER OBSTRUCTIONS AND ENCUMBRANCES; GENERAL PROHIBITIONS

Sec. 24-30. - Cleaning and maintenance of sidewalks; duty of abutting occupant and owner.

No owner of any land within the city limits shall allow any sidewalk adjoining said land to be at any time other than in good repair and in a good and safe condition. The occupant of each and every tenement or building in the city fronting upon any park, street or alley, or the owner or the agent of the owner of any vacant lot fronting as aforesaid, shall at all times keep the sidewalk along the said premises clean and free from all obstructions of any kind and shall keep closely cut all grass or weeds along said sidewalk.

No owner of any land within the city limits fronting upon any street shall permit weeds, flowers, bushes, shrubs or grass along said street to grow to such a height as shall constitute, in the opinion of the commissioner of transportation or his designated representative, a visual obstruction to persons operating motor vehicles upon said street and in such event, the commissioner of transportation or the director of the division of home improvement may order the owner to cut said weeds, flowers, bushes, shrubs or grass to a height of two (2) feet above the ground level.

(Ord. of 8-1-66; Gen. Ord. No. 26-1974, 6-17-74)

ARTICLE 9. - SIDEWALK CONSTRUCTION

Sec. 24-37. - Permit and approved grades and sidelines, required; exception for city work.

Except in the case of city contract work, no person shall lay, relay or repair a sidewalk without first obtaining, before starting the work, a permit in the office of the department of public works. The applicant shall at the same time request grades and sidelines in the office of the city engineer. No permit shall issue without approval by the city engineer.

Sec. 24-38. - Permit fee.

The fee for a permit under this article shall be twenty-five dollars (\$25.00).

(Gen. Ord. No. 25-1986, 6-9-86; Gen. Ord. No. 29-1997, 9-15-97; Gen. Ord. No. 41-2014, 10-14-2014)

Sec. 24-39. - Specifications for commercial and residential sidewalk construction.

- 1) *Central Business District.* Sidewalks in the Central Business District of Syracuse, as herein defined, shall be constructed, reconstructed or repaired with concrete and in accordance with the current city assessment sidewalk specifications on file in the office of the city engineer, unless written authorization is issued by the commissioner of public works, authorizing alternate materials to be used on the sidewalk, in the event the work site is not suitable for the aforementioned material reconstruction. The Central Business District is defined as follows: Northern boundary—Erie Boulevard East and West; western boundary—West Street Arterial; southern boundary—Adams Street; and eastern boundary—Almond Street.
- 2) *Special conditions for repairing or reconstructing sidewalk over cellars or vaults.* Prior to the repair or reconstruction of the cellar or vault, the area must be inspected by the city

engineer or his designee as directed by the commissioner of public works to determine if the vault or cellar is in compliance with building codes.

- 3) *Residential sidewalks and other sidewalk areas not herein specified.* Residential sidewalks and all sidewalk areas not herein specified shall be constructed, reconstructed or surfaced with concrete, street asphalt, fine asphaltic concrete, fine tarvia or such other artificial substance as the department of public works commissioner may direct. Notwithstanding the foregoing, effective September 1, 2003, all residential sidewalks and all sidewalk areas not herein specified shall, when newly constructed or reconstructed, be constructed or reconstructed with concrete except as otherwise provided herein below. In those areas where there are currently a combination of concrete sidewalks and pavers, any reconstruction shall consist of concrete and pavers, of same kind, like and quality in the same pattern which previously existed. Further provided that in cases of economic hardship, the common council shall be authorized to grant a waiver of these requirements upon application to the common council by the property owner. The finished surface must have a smooth, uniform grade, free from irregularities.

(Gen. Ord. No. 25-1986, 6-9-86; Gen. Ord. No. 26-2003, 8-18-03)

Sec. 24-39.1. - Sidewalk construction to facilitate use by handicapped persons.

A sidewalk hereafter constructed or reconstructed on public property for public use within the city of Syracuse, or a person, firm, corporation, nonprofit corporation or organization, shall be constructed in a manner that will facilitate use by physically handicapped persons, At points of intersections between pedestrian and motorized lines of travel, and at other points where necessary to avoid abrupt changes in grade, a sidewalk shall slope gradually to street level so as to provide an uninterrupted line of travel. The city engineer shall prescribe standards of slope gradient, width and slip-resistant qualities which will assure that a sidewalk will accommodate a person in a wheelchair or other handicapped, persons.

The city engineer may waive the aforementioned requirements if, in his opinion, good engineering practice requires such work not be performed at an intersection, and if, in his opinion, such construction creates a safety hazard.

Sidewalk Maintenance

Steps, sidewalks, and similar areas must be kept in good repair and maintained to assure safe travel under normal use and weather conditions.

Failure to maintain the sidewalk in good repair may result in condemnation by the City. In this case, if repairs are not made by the property owner within the allotted time frame, the City will make the repairs and assess the cost to the property owner's tax bill. To report the location of a dangerous sidewalk please call (315) 448-CITY (2489).

Concrete is the ONLY acceptable replacement sidewalk material. Asphalt, tarvia, blacktop are NOT allowed as a repair or replacement material for sidewalks in the City of Syracuse. Their use will result in a condemnation by the City.

- **Reasons for Sidewalk Condemnation**
- **Sidewalk Condemnation FAQs**
- **Sidewalk Construction Permit Application**

Repair and upkeep of sidewalks are the responsibility of each property owner. Sidewalk repairs must be paid for by the owner. Property owners who wish to have new sidewalks installed may use choose one of three options.

- First, they can do the work themselves. They will need to apply for a **Sidewalk Construction Permit**
- Second they can choose to hire a contractor who will need to apply for the same **Sidewalk Construction Permit**
- The third option is to use the City's Sidewalk Assessment Program, which allows them to pay for the cost of the sidewalk over a ten-year period, at an annual interest rate of approximately 7%. The City arranges for the construction. Sidewalks repaired under the Sidewalk Assessment Program are guaranteed for two years. To take advantage of this option, please contact the Chris Ettinger at (315) 448-8548 to schedule an appointment.

During winter months, please remember that your sidewalks must be kept clear of snow and ice. By ordinance, anyone with a sidewalk parallel to any public street, shall clear and keep cleared any snow or ice which has accumulated on the surface. This clearing of the snow and ice shall be completed by 6 p.m. of the day following the accumulation. No person shall shovel, sweep, throw, plow, or otherwise deposit snow or ice into the street, sidewalk, or park located within the city.

City of Syracuse Sidewalk Condemnation FAQs

Why did the City of Syracuse condemn my sidewalk?

The City of Syracuse's condemnation of sidewalks is complaint driven, meaning if you or anyone else calls about the deteriorated condition of your sidewalk, an inspector will be dispatched to inspect it. He or she may also inspect other sidewalks in the area. Your sidewalk was condemned because the condition of the walk was found to be a hazard. Many times this is simply due to the age of the sidewalk or external factors, like severe snow and ice over an extended period of time or, on occasion, roots of trees. The condemnation is the City's process of notifying you that the sidewalk needs to be replaced.

When can a sidewalk be considered "condemned"?

A sidewalk is considered condemnable for a number of different reasons related to condition and safety. See the attached sheet, "Reasons for Sidewalk Condemnation" for more information.

What is my next step to get my sidewalk replaced?

You have a choice on how you replace your sidewalk. The following are your three options:

- 1) Hire a private contractor to perform the work; that contractor will be responsible for getting a permit to put in the new walk. They will need to fill out the sidewalk replacement application, located on the City's website <http://syrgov.net> under the "Documents and Forms" section. They will need to submit the application with a certificate of liability insurance which lists the City of Syracuse as additionally insured, proof of workers' compensation, and a drawing which shows sidewalk dimensions, whether a sidewalk runs through a driveway, and how they plan to block off the sidewalk while the work is being done.
- 2) Replace the sidewalk yourself. You will need to fill out the permit application and provide the City with a certificate of your homeowner's insurance along with the drawing of the work which shows sidewalk dimensions, whether a sidewalk runs through a driveway, and how you plan to block off the sidewalk while the work is being done.
- 3) Have the City do the sidewalk work and have the final cost added to your taxes. Please refer to the condemnation notice you received for instructions on how to proceed.

Dept. of Public Works
1200 Canal St. Extension
Syracuse, N.Y. 13202

Office 315 448-2489
Fax 315 448-8531

www.syrgov.net

If I do have the City perform the work, how does the payment system work?

After the work on your sidewalk is performed, you will receive a letter with the exact cost of the work. The Finance Department will then send a letter in April of the following year to remind you of the amount you owe. You are able at that point to pay back the total amount in a one-time payment by the end of May. If the amount is not paid in May, the total will be paid back in ten yearly installments on your taxes, beginning in July. The interest for the City's sidewalk program is 7%. You may pay your total balance off anytime with no penalties.

What are the requirements for new City sidewalks?

All sidewalks must be constructed at 5' wide. The City requires a two-pour process for contractors or homeowners constructing more than 325 square ft. of sidewalk. For a two-pour process the City standard depth of materials is 4" of concrete with a 1" topping material. When sidewalk runs through a driveway, the City standard depth of materials is 6" of concrete with a 1" topping material. The City recommends all sidewalks be constructed through a two-pour process. However, when a two-pour process is not being used, City standard is 5" of concrete or 7" of concrete when sidewalk runs through a driveway. All driveways are required to have sidewalk running through them. If the sidewalk does not currently run through the driveway, it must be put in when any new work is performed on the driveway or existing sidewalk.

What is the "topping" material?

The topping material is a mix of Portland cement, concrete sand, and water that increases the life expectancy of the sidewalk by making it more durable and better able to withstand the ice, snow, and salt that accompany Syracuse winters. This material is available at many local suppliers.

Does any condemnation require replacement of the whole walk or can sections be "saved"?

If any part of a sidewalk is condemned and the rest of the walk does not meet City standards, the whole walk must be replaced to City standards. Sections of sidewalks commonly referred to as "flags" will be saved where condition allows if the walk does already meet City standards.

What if tree roots caused the damage to my sidewalk?

You or your contractor should call Steve Harris in our Parks Department at (315) 473-4330. An inspector will be sent out to look at the tree and its roots and determine the best course of action to alleviate the issue before the new sidewalk goes in. The City will perform the necessary work on trees that are on City property. If you are having the City perform the work on your sidewalk, you do not need to contact anyone as the City will inspect the tree as part of the sidewalk replacement process.

Are there any options for financial assistance to pay for the sidewalk replacement?

We understand the financial burden that replacing a sidewalk can place on some of our residents. It is for this reason we offer the 10 year payment plan from the City as an option for our residents. However, there are other ways to finance the work, including loans from a financial institution. Other organizations, such as Home Headquarters, do offer loans for sidewalk work where funding allows. You can inquire on these opportunities to Home Headquarters at (315) 474-1939.

DEPARTMENT OF PUBLIC WORKS

Ben Walsh, Mayor

Reasons for Sidewalk Condemnation

Step separation - a vertical displacement of 13 mm (0.5 in) or greater at any point on the walkway that could cause pedestrians to trip, lock up the wheels of a wheelchair, or prevent the wheels of a wheelchair from rolling smoothly.

Badly cracked concrete - holes and rough spots ranging from hairline cracks to indentations wider than 25 mm (1 in).

Spalled areas - fragments of concrete or other building material detached from larger structures; also losses of aggregate and cement leaving holes or depressions greater than 50 mm x 50 mm (2 in x 2 in) in the sidewalk.

Settled areas that trap water - sidewalk panels with depressions, or other indentations that cause the sidewalk path to be lower than the curb; these depressions cause silt and water to settle on the walkway path and might require replacement.

Cross-slope - sidewalks with a slope towards the road greater than ¼" per foot (2%) or reverse cross-slopes.

Tree root damage - roots from trees growing in adjacent landscaping that cause the walkway surface to buckle and crack, impeding access.

Vegetation - vegetation growing up through cracks in the sidewalk.

Sidewalks of materials other than specified by the municipality - the placement of materials other than those specified by the municipality in the construction of sidewalks. Asphalt is no longer an acceptable repair or replacement material for sidewalk in the City of Syracuse.

Any safety issue – a defect or hindrance in the sidewalk causing an unsafe condition that the inspector believes merits attention.

DEPARTMENT OF PUBLIC WORKS

Stephanie A. Miner, Mayor

SIDEWALK CONSTRUCTION PERMIT APPLICATION & INSTRUCTIONS

REQUIRED FOR: Replacing or constructing sidewalk in the Right of Way.

THIS APPLICATION PACKET CONTAINS:

- 1) List of Required Submittals
- 2) Submittal Instructions
- 3) Sidewalk Construction Agreement
- 4) Sidewalk Construction Application
- 5) Liability Waiver Application (Sidewalk Construction)
- 6) Sidewalk Depth Standard
- 7) Dig Safe Information Sheet

REQUIRED SUBMITTALS:

- **Sidewalk Construction and Liability Waiver Applications** – pages 3, 4, and 5.
- **Application Fee** – \$25 non-refundable; check or Money Order payable to Commissioner of Finance.
- **Insurance Certificates**
 - If contractor, listing the City of Syracuse as additional insured in the amount of at least \$1 million in General Liability and proof of Workers' Compensation in the amount of at least \$500,000.
 - If homeowner, a copy of your homeowner's insurance certificate.
- **Diagram of Sidewalk Work/Traffic Control With Dimensions On Separate Sheet of Paper**
 - Shall show where sidewalk is on property, dimensions of sidewalk, and whether or not sidewalk runs through driveway. *City standards require concrete sidewalks to continue through driveways.*
 - Shall show all traffic control devices being used (signage, cones, barricades, etc.), as well as how the applicant will block off the street or sidewalk where the work is occurring.
 - Shall show how the applicant plans to route pedestrian/vehicular traffic around the work.
 - Shall show dimensions of street/sidewalk left open to pedestrian/vehicular traffic.
 - Shall be in accordance with the 2009 Federal MUTCD (Manual of Uniform Traffic Control Devices).
 - Shall be on separate sheet of paper from the application

SUBMITTAL INSTRUCTIONS:

- 1) Application must be completed in its entirety. Incomplete or partial applications will not be processed.
- 2) AT LEAST 10 DAYS PRIOR TO CONSTRUCTION, Application, Fees, and additional documents must be submitted to the:

Central Permit Office

201 E. Washington St., Room 101

Syracuse, NY 13202

Sidewalk Construction Agreement

I, the applicant, understand and agree that as part of my sidewalk construction, I:

(Initial next to each item)

_____ Have read and am familiar with the "Sidewalk Construction Standards" as provided to me under the "Documents and Forms" section of the City's website (<http://syrgov.net>) and/or made available to me at the Central Permit Office.

_____ Shall contact the City Arborist (315-473-4330) if there is a tree adjacent to the walk.

_____ Shall call Dig Safely New York (811) 2 to 10 days prior to any construction.

_____ Shall install the sidewalk at at least 5' wide.

_____ Shall install a concrete sidewalk according to the "Sidewalk Construction Standards."

_____ Shall install the sidewalk through all driveways on the property.

_____ Shall install the sidewalk 5" thick and 7" thick when running through a driveway (see attached depth standard).

_____ Shall install the sidewalk through a two-pour process (4" of concrete with a 1" topping and 6" with a 1" topping through a driveway) if the walk installed is greater than 325 sq ft (see attached depth standard). I understand that the City of Syracuse always strongly recommends installing sidewalk through a two-pour process.

_____ Shall contact the sidewalk inspector (315-448-8548) after the work is completed in order to consent to an inspection by the same.

_____ I understand that failure to comply with any or all construction specifications may result in a "condemnation" by the City, wherein the abutting property owner will be responsible for all costs associated with replacement according to such specifications.

The Waste Hauler must be licensed to operate in the City of Syracuse pursuant to Article 2, Chapter 14, of the City of Syracuse Revised General Ordinance's, Solid Waste Ordinance.

Please provide business name of Waste Hauler:

OBSTRUCTED METERED LOCATIONS

- The City of Syracuse shall be compensated for any parking revenue lost as a result of this project.
- Rates are \$11.25 per parking space per day.
 - Example: 2 spaces @\$11.25 = \$22.50 per day x 10 days (length of project) = \$225.00).
- Rates are charged Monday through Saturday, except for Holidays.
- Fees are due when the application is submitted.

# SIDEWALK AND DRIVEWAY SIDEWALK DETAIL

## PAY ITEM 52 AND 53

(NOT TO SCALE)

## Synopsis

### **Call the One-Call Center (811)**

Call 2 to 10 days in advance of start date, not counting date of call. Make note of ticket reference number and names of operators notice will be transmitted to.

### **Wait the Required Time**

Do not start before your stated commencement date, unless you have been notified by EVERY operator that they have NO FACILITIES in your work area.

### **Confirm Utility Response**

Check that each notified operator has either marked your work site or given an "all clear".

### **Respect the Marks**

Preserve the paint/flags until no longer needed for safe excavation. It is recommended that you remove them to the best of your ability once your excavation work is complete.

### **Dig with Care**

See "Verifying Locations/Tolerance Zone" below. Maintain minimum 4" clearance from utilities after verifying locations. Support long spans of exposed facilities to prevent collapse or sagging. Backfill carefully to prevent damage to facilities and their coatings, and to provide support beneath exposed facilities.

### **Verify locations/Tolerance Zone (See 753-1.2 (k) & (i), 753-3.6 and 753-3.7)**

Before using powered equipment within the tolerance zone, the locations of gas and liquid petroleum lines **MUST** be verified by means of hand-dug test holes. Locations of other utilities may be verified in this manner, or by other means mutually agreed to with the operator. Powered equipment may be used for removal of pavement, **ONLY** to the depth of pavement. If the facility cannot be located after diligent search at a reasonable depth, notify the operator.

### **Pre-marking with White Paint (See 753-3.2(b))**

The use of White Paint to delineate a work area is encouraged. It is required when necessary to adequately identify the work site (i.e. the exact location, dimensions, etc. cannot be verbalized). This practice helps locators avoid marking where not necessary while assuring the excavation site does get marked properly. White is the industry standard for this purpose and is used to avoid confusion with other underground facility designations. Chalk based paint is advised since it will dissipate quicker with rain, etc. Take care that the white marks will not be confused with traffic or pedestrian control marks. For a small or single (ex: tree planting) excavation of known dimensions, delineate the exact area with dots, dashes, a continuous line, or white stake(s). For larger excavations, use intervals whereby each mark can be seen from the previous one.

As a courtesy and where practical, alerting the property owner to the reason for the white marks can save calls to the utilities and One-Call Center asking: "Who put this paint here and why?"

---

# DEPARTMENT OF ENGINEERING

CITY OF SYRACUSE, MAYOR BEN WALSH

## Standard Sidewalk Replacement Permit Conditions:

All replacement sidewalks shall be constructed in concrete per City standards, specifications & per sidewalk permit instructions. The replacement sidewalk shall be a minimum of 5' wide and 5" thick, 7" thick through driveways (applicant shall match existing width of sidewalk when the existing width exceeds 5' unless directed otherwise by the City of Syracuse). The replacement sidewalk shall have a cross slope between 1% minimum and 2% maximum and the finish surface shall be smooth and free of irregularities (the cross slope for the sidewalk through the driveway shall also meet the required maximum cross slope of 2%). If the replacement sidewalk has to transition to an existing sidewalk less than 5' wide the replacement walk shall be tapered in to meet existing (taper distance shall be limited to 5'). The transition (cross slope grade) between new sidewalk and existing/adjoining sidewalk shall meet cross slope standards (2% max.) to the maximum extent possible if the existing sidewalk exceeds 2% cross slope. Expansion joints shall be installed at 20' intervals. Contraction joints shall be placed at equal intervals not exceeding 6' between expansion joints. All Joints shall be caulked. Vertical discrepancies of ¼" or more between replacement slabs or meet line with existing sidewalk shall not be permitted. Sidewalk sections shall be replaced in full flags. Any existing sidewalk to remain or adjoining sections damaged or disturbed by the construction shall be replaced also. The subgrade & subbase shall be prepared in accordance with the specifications and shall be compacted as required. The excavated concrete shall be removed and disposed of in a proper manner. Advance signage notifying pedestrians that the sidewalk is closed during construction shall be placed in advance of the work. Construction cones, tape, or barricades shall be used to close off the work area. Concrete washout shall occur in a protected washout area, no concrete wash shall enter the City sewer system.

**If Brick;** In accordance with Sec 24-39 of the City Charter, the substitution of concrete with brick is permissible in the Central Business District when written authorization is issued by the Commissioner of Public Works. If the Commissioner authorizes the use of bricks as a walking surface in this area; then the surface finish shall conform to the required ADA standards of cross slope between 1% minimum and 2% maximum, shall be slip resistant, free of any irregularities, no vertical risings or horizontal openings as specified. The subbase shall be prepared accordingly to prevent settlement. The transition (cross slope grade) between the new sidewalk and existing/adjoining sidewalk shall meet cross slope standards (2% max.) to the maximum extent possible if the existing sidewalk exceeds 2% cross slope, no vertical discrepancy is allowed (additional sidewalk removal & replacement beyond the work limits may be required to provide a compliant transition). The brick surface shall be maintained on a regular basis to ensure an ADA compliant walking surface is maintained and free of trip hazards and similar. If written authorization is not received from the Commissioner, the sidewalk shall be replaced with concrete per City specifications.

# Syracuse Sidewalks and Parcels

## Layers

- Sidewalks are absent (White)
- Partial sidewalk present in a block (Orange)
- Minor sidewalk gaps and/or mix of materials (Yellow)
- No sidewalk gaps, mix of materials (Light Green)
- Continuous concrete sidewalk (Green)
- Tax Parcels

## **ATTACHMENT C:**

### **ADA Transition Plan Rating System Excerpted from the 2016 New York State Department of Transportation ADA Transition Plan**

#### **Rating 2 - NOT ACCESSIBLE - Accessibility for Persons with Disabilities is impossible or very difficult**

##### **Sidewalks, Multi-use trails -**

- There are significant obstacles such as:
  - > 50' of unpaved walkway
  - Significant heaving or vertical displacement
  - Significant flooding
  - Vegetation growing over walkway
  - Steps within walkway
  - Less than 3' of width around obstacles (5' generally overall)

## Appendix A – Rating Scale

### RATING SCALE FOR ACCESSIBILITY OF PEDESTRIAN FACILITY SEGMENTS OR POINTS ALONG STATE HIGHWAYS

Below are examples of the Rating Scale 1-5, with 5 being the best.

**Rating 1 - NOT APPLICABLE - A facility or feature is not required to be accessible. If a feature is part of an accessible route, it is required to be accessible.**

**Rating 2 - NOT ACCESSIBLE - Accessibility for Persons with Disabilities is impossible or very difficult**

Sidewalks, Multi-use trails -

- There are significant obstacles such as:
  - > 50' of unpaved walkway
  - Significant heaving or vertical displacement
  - Significant flooding
  - Vegetation growing over walkway
  - Steps within walkway
  - Less than 3' of width around obstacles (5' generally overall)

**Intersections - curb ramps and crosswalks**

- No curb ramps
- Street crown very steep,
- Crosswalk pavement severely cracked or distressed

**Crosswalks**

**Curb Ramps**

**Rating 3 - PARTIALLY ACCESSIBLE** Not to current standards. Accessibility is possible, but there are problems

**Sidewalks, Multi-use trails -**

- Small heaving or vertical displacement,
- No handrails on walkway ramps, etc.
- Major maintenance issues (gravel accumulation)

**Intersections - curb ramps and crosswalks**

- Problems with geometry,
- Generally less than 5' width
- No detectable warnings
- Curb ramps not compliant as per Standard Sheets
- Major maintenance issues (gravel accumulation)

**Crosswalks**

**Curb Ramps**

**Rating 4 - ACCESSIBLE - May need additional improvements**

**Sidewalks, Multi-use trails -**

- Generally minor maintenance problems
- Minor insufficient width

### Intersections - curb ramps and crosswalks

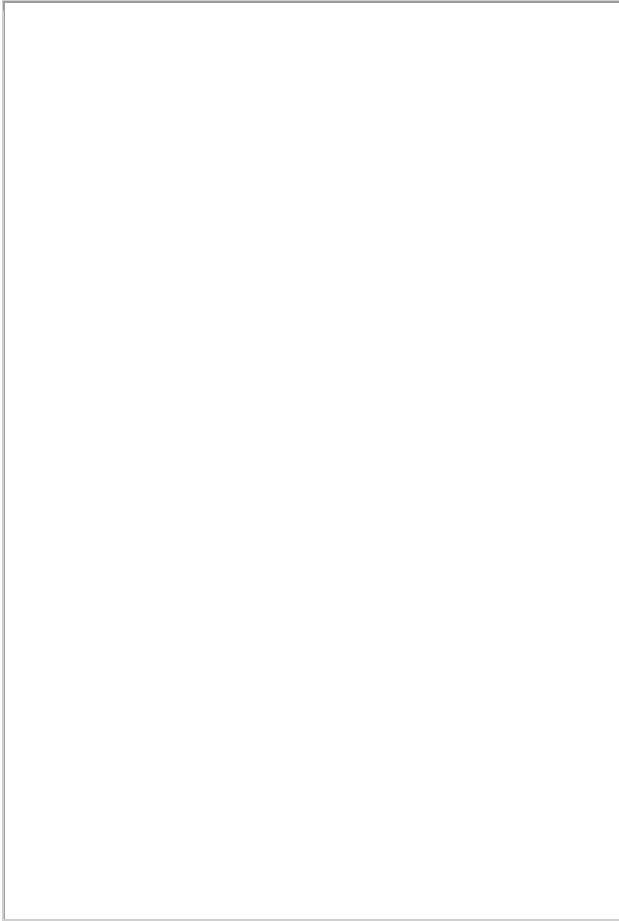

- Generally minor maintenance problems
- Minor insufficient width

**Crosswalks**

**Curb Ramps**

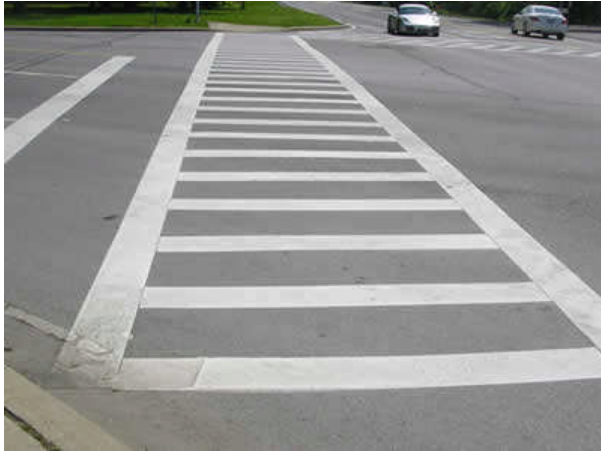

**Rating 5 -FULLY ACCESSIBLE TO CURRENT STANDARDS**

**Sidewalks, Multi-use trails -**

**Intersections - curb ramps and crosswalks**

**Crosswalks**

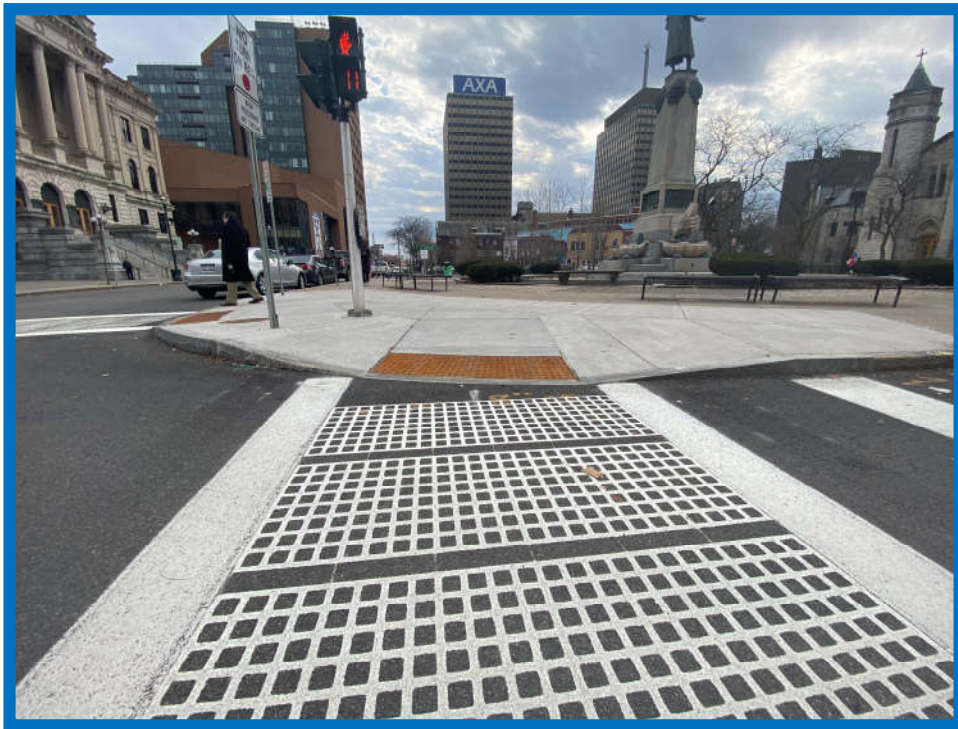

**Curb Ramps**

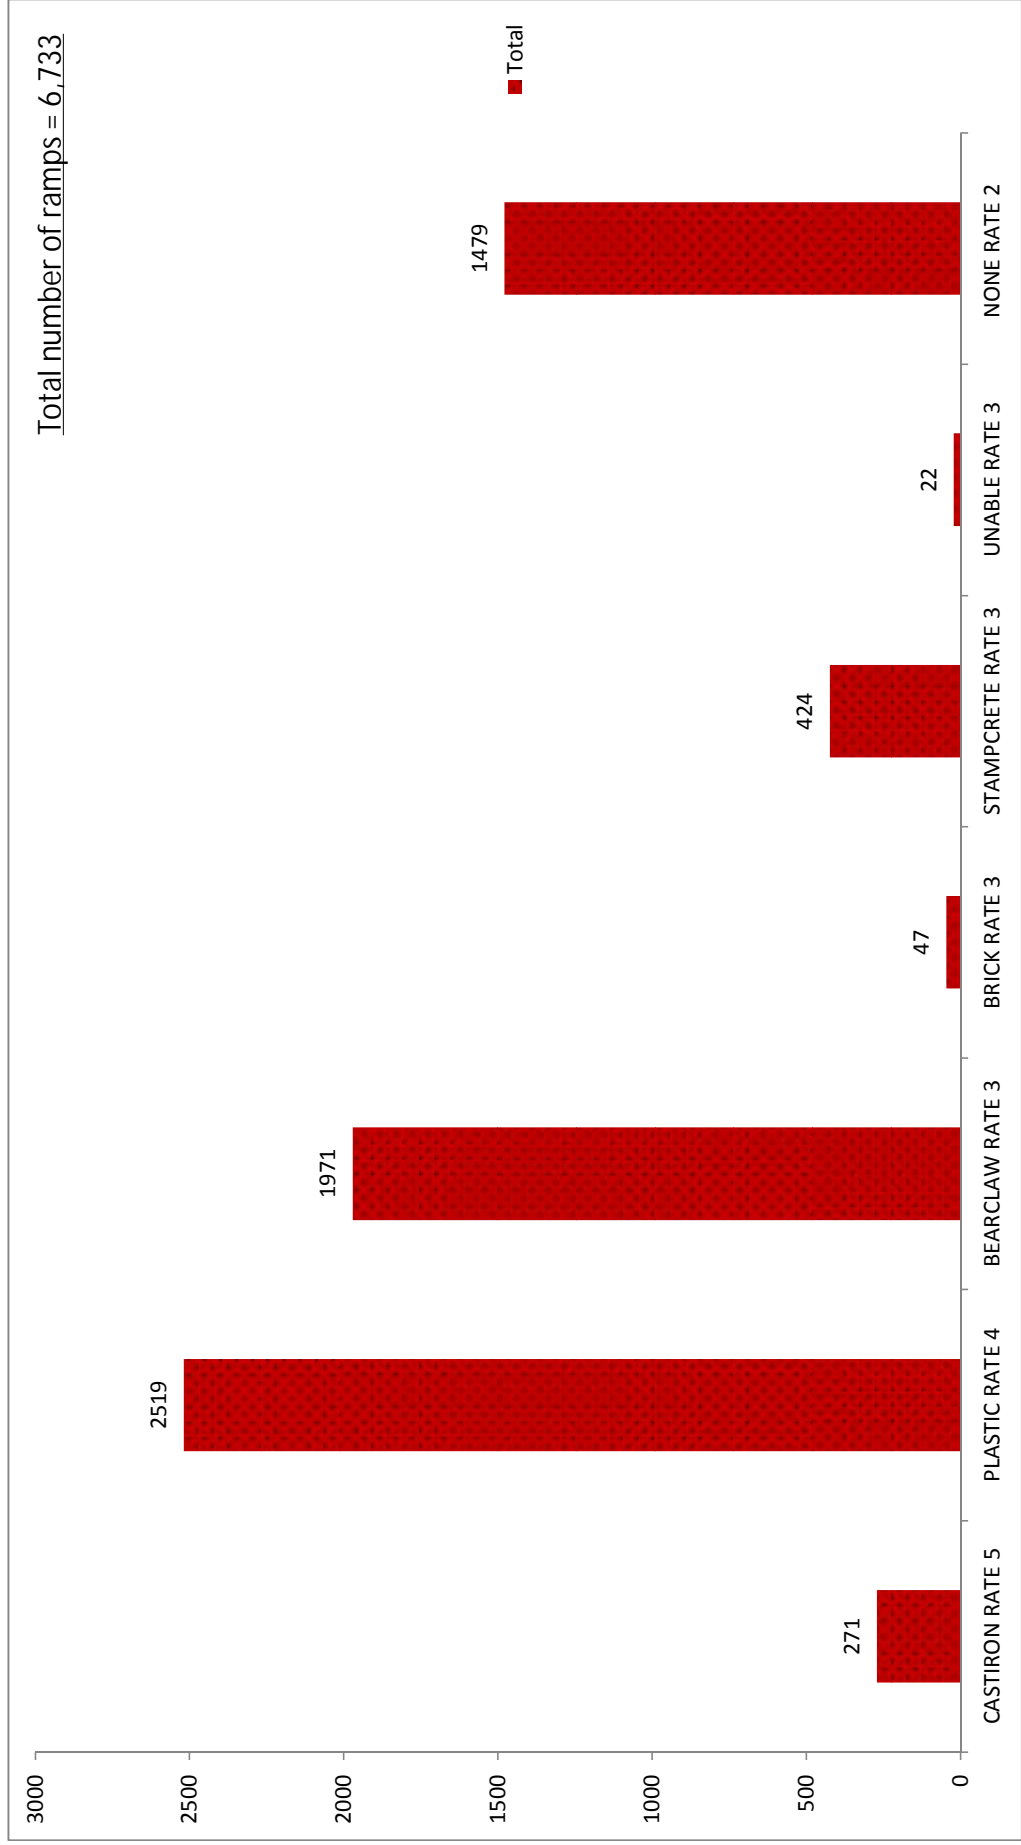

## **ATTACHMENT D:**

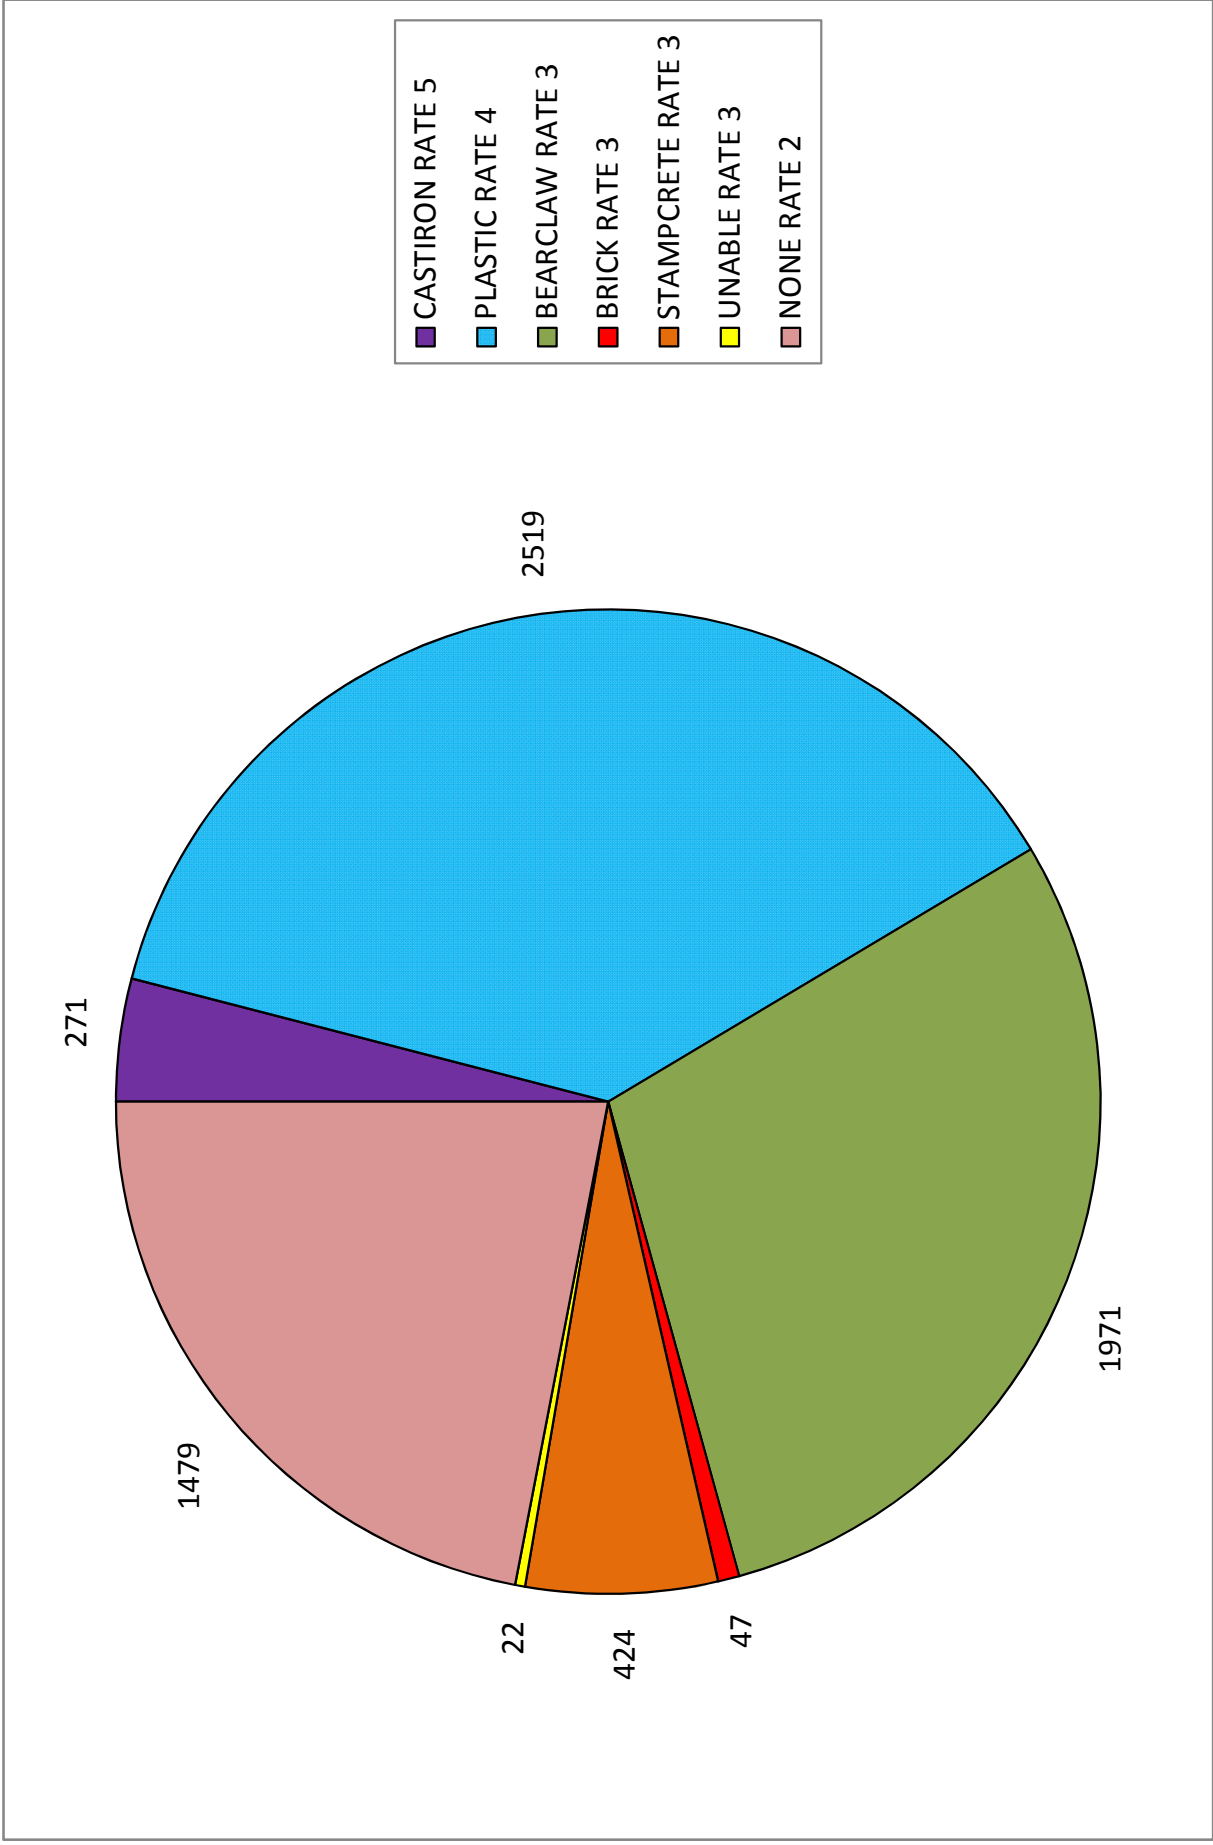

### **Intersection/Ramp Data**

Total number of ramps = 6,733

Finance/Treasury  
Finance (Water Bureau)  
Fire Chief  
Grants Management Director  
Board of Education

**ORDINANCE AUTHORIZING THE APPROVAL OF A DRAFT OF THE CITY OF SYRACUSE’S “THE AMERICAN WITH DISABILITIES ACT (ADA) TRANSITION PLAN” AND IT’S ISSUANCE FOR PUBLIC COMMENT**

WHEREAS, 28 CFR 35.105 requires a public entity that employs fifty or more persons to prepare an American With Disabilities Act (ADA) Transition Plan identifying noncompliance in pedestrian accessible routes and facilities in the municipal Sponsor’s public right-of-way, along with a plan and schedule for corrective action. Failure to have a Transition Plan may result in ineligibility for Federal Funding; and

WHEREAS, the purpose of this ADA Transition Plan is to ensure that the City of Syracuse creates reasonable, accessible paths of travel in the public right-of-way for everyone, including people with disabilities. Specifically, the plan will address curb ramps and crossings at intersections and sidewalks as they relate to ADA standards. ADA compliant accessibility is not only for individuals with mobility disabilities, but also for individuals with needs related to speech, cognitive, vision, and hearing disabilities. The ADA Transition Plan identifies physical barriers and prioritizes improvements that should be made throughout the City. This Transition Plan describes the plans, policies, and programs to enhance overall pedestrian accessibility; and

WHEREAS, the Common Council intends that this document be submitted to the public for comment in accordance with 28 CFR 35.105;

NOW, THEREFORE,

BE IT ORDAINED, that, subject to the approval of the Mayor, this Common Council authorizes the distribution of the Project’s Draft ADA Transition Plan for public comment with

comments to be received by the City Engineer in both written and electronic form by April 22, 2020; and

BE IT FURTHER ORDAINED, that the Draft ADA Transition Plan will be placed on the City's website with comments to be received by the City Engineer at 401 City Hall, 233 East Washington Street, Syracuse, New York 13202 or by email at [Engineering@syrgov.net](mailto:Engineering@syrgov.net); and

BE IT FURTHER ORDAINED, that the Corporation Counsel, the City Engineer and appropriate City staff are hereby authorized to take whatever steps are necessary to carry out this Ordinance and to comply with applicable Federal Regulations; and

BE IT FURTHER ORDAINED, that this Ordinance shall take effect immediately.

### Department of Engineering

City Hall, Room 401  
Syracuse, NY 13202

Mary E. Robison, P.E., City Engineer

The Engineering Department provides engineering services and support for all city departments. The Department reviews and approves private projects that are on or related to city owned property, assists City Officials with the planning, review, and implementation of City projects and private ventures that require City of Syracuse involvement. You can email us at [Engineering@syr.gov](mailto:Engineering@syr.gov).

**City ADA Transition Plan**

The ADA requires that there is an opportunity for the public to provide input on the Transition Plan. To meet that requirement, the City of Syracuse advertised the draft ADA plan on the City's website & invited public comment. In addition the public can attend the City Council meeting in which this ADA Transition Plan was approved and adopted (March 16, 2020). Comments and suggestions regarding the plan were then addressed in advance of this plan's adoption. Residents can read the plan here: [bit.ly/syrgov-public0423-engineering](http://bit.ly/syrgov-public0423-engineering)

**Public Comments will be accepted until May 16, 2020 and can be sent to the address and email below:**

Mary E. Robison, PE  
City Engineer  
233 East Washington Street Room 401  
Syracuse, NY 13202  
Fax (315) 448-8488

### Small Cell Wireless Facilities Aesthetic Design Standards

Pursuant to FCC Declaratory Ruling and Third Report and FCC Order 18-133, effective January 14, 2019, wireless service providers and wireless infrastructure providers are permitted to locate small wireless facilities in the public right-of-way. These networks of low-powered micro antennas provide cellular and data coverage to supplement the provider's macro-cellular network. New small cell installations will improve the providers' ability to meet current and future consumer cellular and data needs.

The **City of Syracuse Small Wireless Facilities Aesthetic Design Standards** have been developed by the City to ensure that the design, appearance, and other features of small wireless facilities are compatible with nearby land uses; to

prevent the intangible public harm of unsightly or out-of-character deployments; to ensure vehicular and pedestrian traffic safety and coordinate various uses in the right-of-way; and to protect the integrity of historic, cultural, and scenic resources and citizens' quality of life. The document establishes design and aesthetic requirements that all small wireless facilities installed within the ROW must meet prior to installation within Syracuse boundaries. Small wireless facilities installed within the ROW are bound to these design standards.

For more information, please contact: Mary Robison, P.E., City Engineer, at (315) 448-8200 or mrobison@syr.gov.net.

**NOTICE OF AVAILABILITY OF THE CITY OF SYRACUSE'S  
STORMWATER MANAGEMENT PROGRAM ANNUAL REPORT**

The City's **2019-2020 Annual Report Draft**, prepared in accordance with the New York State Department of Environmental Conservation's SPDES General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (MS4) is now available for review and comment. The SPDES General Permit requires that the City develop, implement and enforce a Stormwater Management Plan (SWMP) designed to reduce the discharge of pollutants from the City's stormwater sewer system to the maximum extent possible. The annual report describes the activities completed during the annual report period ending March 9, 2019 and evaluates the progress in achieving measurable goals identified in the City's SWMP for each of the six minimum control measures outlined in the SPDES General Permit and summarizes new goals planned for the coming year.

For more information, please contact: John Kivlehan, Division Engineer, at (315) 448-8205 or JKivlehan@SyrGov.net.

## Kivlehan, John

---

**From:** Kivlehan, John  
**Sent:** Thursday, June 04, 2020 5:16 PM  
**To:** 'Mary Carney'; Engineering  
**Subject:** RE: ADA Transition Plan comments

Mary

Thank you for taking your time to read and provide comments on the Transition Plan. The City is preparing to move forward with presenting the plan to the Common Council for formal approval. Please see responses below in red to your comments, your comments will be included in the final plan.

Please note, the response below and the preparation of the Transition Plan are based on certain rules in contained in the Charter. As you are most likely aware, there have been recent discussions on changing those rules in particular the responsibility of the property owner to fund and maintain sidewalks, however due to COVID-19, those discussions are temporarily suspended. However any future changes in the Charter will require the plan to be amended.

Again, thank you for taking your time to provide comments. In the future if you have specific concerns please complete and submit the complaint form in the plan (the complaint process is an invaluable tool in correcting deficiencies in the Right of Way).

Thank you.

John Kivlehan  
Division Engineer  
Design & Construction  
Dept. of Engineering

1. The plan should explicitly acknowledge that the City's policy of homeowners having responsibility for maintaining sidewalks on their property presents a major barrier to achieving conditions that might provide people with disabilities equal access to public spaces. Many residents cannot afford to repair or replace broken sidewalks, and the City does not have a policy or resources that can adequately address this issue. Thus, the plan should include proposals to explore policies and programs that might remedy this problem.

**RESPONSE:** The Transition Plan on page 2 refers the reader to the City Charter with regard to the responsibility of the property owner (Applicable sections of the Charter are contained in Attachment A). The preparation of the Transition Plan is based on the current City Charter and policies therein. If and when the appropriate sections of the Charter being referenced are amended then the Plan will require revision. The Transition Plan clearly demonstrates that all new public facilities to be constructed in the Public Right of Way shall be ADA compliant.

2. The City has taken many laudable steps in recent years to pilot snow clearance programs, which should be acknowledged in the plan, as snow often impacts accessibility in Syracuse. The transition plan should also propose that the city explore expanding the snow clearance programs.

**RESPONSE:** As per the response to Comment # 1, the City Charter outlines the responsibility of maintenance activities such as snow removal on the property owner. The sections of the Charter are included in the

Transition Plan in Attachment A. The preparation of the Transition Plan is based on the current version of the City Charter and rules. If the Charter is amended, then the ADA will require revision.

3. The plan should discuss how the City might address accessibility of transit stops. Many bus stops in the city lack paved connections that allow someone to easily get from the sidewalk to a bus. This is a safety hazard and equity issue that can impair people's access to transit.

RESPONSE: Bus stops, shelters and similar are the responsibility of CENTRO or other similar providers, similar to the City of Syracuse, these entities need to ensure their facilities meet the required ADA standards. Any known specific concerns should be brought to CENTRO's attention. The Transition Plan clearly states all new construction as applicable in the City Right of Way is required to meet ADA standards.

4. There are many City-owned sidewalks under bridges (e.g., on Franklin St, near the intersection with Butternut St.) that are very narrow. When snow piles up, there is no accessible pathway in the winter in these spaces. The plan should outline how the city might address these issues.

RESPONSE: Snow removal is a maintenance issue and addressed under responses above. The Transition Plan details these responsibilities in Attachment A, where the adjacent property owner is responsible for maintenance (i.e. snow removal) of the sidewalk in front of their property. The City is continually making proactive steps in increasing its maintenance responsibility on City owned sidewalk sections (including snow removal). Regarding the width of the sidewalk, the City directs your attention to the following NYSDOT guidance [https://www.dot.ny.gov/divisions/engineering/design/dqab/hdm/hdm-repository/ADA\\_Construction\\_Inspection\\_with\\_notes.pdf](https://www.dot.ny.gov/divisions/engineering/design/dqab/hdm/hdm-repository/ADA_Construction_Inspection_with_notes.pdf), noting Pages 93 through 96 where under certain conditions, construction can be justified as a non-standard feature. Again, per the Transition Plan the construction of all new public facilities in the R.O.W. need to meet the standards, however as above there are non-standard cases, refer to page 7 of the Plan (i.e. new sidewalk under a bridge: lane widths, distance between abutments are possible limiting factors to achieving full compliance)

5. The Syracuse Parks Department has done a lot of work to improve accessibility and inclusion of the city's parks and recreational facilities, as well as its programs. Staff and volunteers have invested many resources in evaluating accessibility of Syracuse parks, which is documented in the Inclusion Recreation Resource Center database (available at <https://search.inclusiverec.org/>). These assessments could easily be incorporated into the Transition Plan as part of the self-evaluation. Furthermore, the City could take the information from the assessments and identify specific goals for improving accessibility in parks and recreational programs and facilities. Outlining clear goals and benchmarks for accessibility could help make sure the known problems do not remain unaddressed, and help the City seek funding to address the issues.

RESPONSE: The Transition is prepared for the City of Syracuse as such its policies and practices are applicable to all City Departments. The Parks Department should use the Plan along with other Parks efforts as outlined by you to continue addressing ADA in both their facilities and programs.

6. The Transition Plan could include a goal of making the city's website compliant with accessibility guidelines and standards. Many changes needed on the website are straightforward: all documents should be made available in formats that allow people with screen readers to easily access them; pictures should have descriptive captions; etc.

RESPONSE: The City's Website is currently under redesign to make access to information more accessible and user friendly to the public.

7. The City should consider publishing the ADA transition plan in a more user-friendly, readable format. For example, Tempe, Arizona made a webpage for their plan (<https://www.tempe.gov/government/strategic-management-and-diversity/diversity/ada-accessibility/ada-transition-plan>) and created a Story Map to help

people understand it

(<https://tempegov.maps.arcgis.com/apps/MapJournal/index.html?appid=a2c19af5c1704136b73623cc3cdcd651>).

**RESPONSE:** As above, the City's website is under redesign, when complete, other options to present the ADA plan will be investigated.

Consider identifying performance measures in the ADA Transition Plan, and integrating them into the City's Performance Management Dashboard (<http://dashboards.syr.gov.net/>).

**RESPONSE:** This will be considered however it is not a requirement of the Plan. Please note as part of the Transition Plan the mapping of the ADA corners is an ongoing effort; as corners are improved, this data can provide a performance measure.

**Subject:** ADA Transition Plan comments

Hello,

I am writing to submit the following comments on the proposed ADA Transition Plan:

1. The plan should explicitly acknowledge that the City's policy of homeowners having responsibility for maintaining sidewalks on their property presents a major barrier to achieving conditions that might provide people with disabilities equal access to public spaces. Many residents cannot afford to repair or replace broken sidewalks, and the City does not have a policy or resources that can adequately address this issue. Thus, the plan should include proposals to explore policies and programs that might remedy this problem.
2. The City has taken many laudable steps in recent years to pilot snow clearance programs, which should be acknowledged in the plan, as snow often impacts accessibility in Syracuse. The transition plan should also propose that the city explore expanding the snow clearance programs.
3. The plan should discuss how the City might address accessibility of transit stops. Many bus stops in the city lack paved connections that allow someone to easily get from the sidewalk to a bus. This is a safety hazard and equity issue that can impair people's access to transit.
4. There are many City-owned sidewalks under bridges (e.g., on Franklin St, near the intersection with Butternut St.) that are very narrow. When snow piles up, there is no accessible pathway in the winter in these spaces. The plan should outline how the city might address these issues.
5. The Syracuse Parks Department has done a lot of work to improve accessibility and inclusion of the city's parks and recreational facilities, as well as its programs. Staff and volunteers have invested many resources in evaluating accessibility of Syracuse parks, which is documented in the Inclusion Recreation Resource Center database (available at <https://search.inclusiverec.org/>). These assessments could easily be incorporated into the Transition Plan as part of the self-evaluation. Furthermore, the City could take the information from the assessments and identify specific goals for improving accessibility in parks and recreational programs and facilities. Outlining clear goals and benchmarks for accessibility could help make sure the known problems do not remain unaddressed, and help the City seek funding to address the issues.

6. The Transition Plan could include a goal of making the city's website compliant with accessibility guidelines and standards. Many changes needed on the website are straightforward: all documents should be made available in formats that allow people with screen readers to easily access them; pictures should have descriptive captions; etc.
7. The City should consider publishing the ADA transition plan in a more user-friendly, readable format. For example, Tempe, Arizona made a webpage for their plan (<https://www.tempe.gov/government/strategic-management-and-diversity/diversity/ada-accessibility/ada-transition-plan>) and created a Story Map to help people understand it (<https://tempegov.maps.arcgis.com/apps/MapJournal/index.html?appid=a2c19af5c1704136b73623cc3cdcd651>).
8. Consider identifying performance measures in the ADA Transition Plan, and integrating them into the City's Performance Management Dashboard (<http://dashboards.syr.gov.net/>).

Thank you for your consideration and work on the city's plan!

Sincerely,

Mary Carney

Diana

Thank you for taking your time to read and provide your comments on the Transition Plan. The intent of of the Transition Plan is out lined on page 2 of the document under Introduction, under the Transition Plan new Handicapped Accessible Parking shall be constructed to meet the required standards. Your comment is specifically related to the provision of handicapped accessible parking for employees, this is a Personnel Department issue. Please review the City's Personnel Page <http://www.syr.gov.net/Personnel.aspx> which contains ADA guidance (sidebar menu). Please consider contacting the ADA Coordinator, Bianca Tearney with your specific comment.

The City is preparing to move forward with presenting the plan to the Common Council for formal approval. If you have any questions, please contact me.

Thank you.

**Subject:** ADA Plans

As an aside, I do not believe the City has ever addressed handicapped parking for employees.

Owen

Thank you for taking your time to read and provide your comments on the Transition Plan. The City is preparing to move forward with presenting the plan to the Common Council for formal approval. Your comment was only 1 of 3 received, all comments will be included in an Attachment to the Plan.

Your comment as you note brings up technical/construction requirements related to sidewalk construction and trees. The City and (others) in new construction need to consider the impact of new trees on accessible facilities and the impact of new facilities on existing tree or similar conflicts. The Transition Plan on page 7, under new Construction & Alterations states that the City uses NYSDOT Design Guidelines for construction. Please consider reviewing the following links for additional information.

<https://www.dot.ny.gov/divisions/engineering/design/dgab/hdm/chapter-18>, in addition please view the resource links in particular [https://www.dot.ny.gov/divisions/engineering/design/dgab/hdm/hdm-repository/ADA\\_Construction\\_Inspection\\_with\\_notes.pdf](https://www.dot.ny.gov/divisions/engineering/design/dgab/hdm/hdm-repository/ADA_Construction_Inspection_with_notes.pdf), within please note pages 91 through 97 which explains justifiable circumstances and the process under which ADA construction can be non-standard.

The Engineering Department looks forward to continuing our relationship with the Planning Department, ensuring that the R.O.W. is accessible to all users.

Thank you.

**Subject:** SYRACUSE ADA TRANSITION PLAN REVIEW AND COMMENT PERIOD

Thanks for preparing this important document.

Although this is a general planning document that cannot anticipate every sidewalk conflict or scenario, omitting any guidance on street trees seems like an oversight to me. Sidewalks and street trees are a frequent and consistent issue that affects ADA compliance, and I think some general guidance on how decisions are made by the City when these conflict arise would be worthwhile.

Regarding a policy on this relationship between street trees and sidewalk relative to ADA compliance - I will advocate that the City look at criteria whereby more street trees may be maintained and preserved when

these sidewalk/street tree conflicts arise. The City should consider how to better balance these occasionally competing streetscape features. I am happy to help work on this if there is interest.

Thanks again for your work on this document.
