

SYRACUSE★ COMMUNITY SOLAR

National Grid Bill Example

How you Save Money	What You'll See on Your Bill:
You receive solar credits, reducing your electricity charges.	Your Solar Credit Revenue is listed as a Community Net Metering Adjustment.
You only pay for those credits - at a set rate of 90% of the solar credit value, or 80% if you are income-qualified.	Your Discounted Subscription is listed as a CDG Subscription Fee. This will never be more than the credits you receive.
You keep the remaining 10% or 20% of the savings, lowering your total bill.	The combined amounts of the Community Net Metering Adjustments and CDG Subscription Fee are your Net Savings .

Solar Credits = Share of energy produced by a solar farm

Choosing an Energy Supplier You can choose who supplies your energy. No matter which energy supplier you choose, National Grid will continue to deliver energy to you safely, efficiently and reliably. We will also continue to provide your customer service, including emergency response and storm restoration. National Grid is dedicated to creating an open energy market that lets you choose from a variety of competitive energy suppliers, who may offer different pricing options. For information on authorized energy suppliers and how to choose, please visit us online at ngrid.com/ny-energychoice

Notice About Electronic Check Conversion

By sending your completed, signed check to us, you authorize us to use the account information from your check to make an electronic fund transfer from your account for the same amount as the check. If the electronic fund transfer cannot be processed for technical reasons, you authorize us to process the copy of your check.
