

Syracuse Police Department COMPSTAT

What is COMPSTAT?

COMPSTAT stands for Comparative Statistics. In a weekly meeting of police command staff, divisional supervisors and other personnel, all parties discuss recent Part I criminal activity and proposed strategies to address the situation.

Each meeting covers a three week period, and rotates between the three patrol divisions North, Southwest, Southeast. All three Divisions provide maps, tracking activity in seven different crime types, but only one division presents per week.

Other divisions also report - Criminal Investigations Division, Crime Reduction Team, Special Investigations, Gang Violence Task Force. Those divisions reports are not included in this report because they may contain sensitive law enforcement information.

Glossary and Notes

Part I Crime- The FBI standard for its *Crime in the United States* report, issued each fall. Part I violent crimes are murder or non-negligent homicide, rape, robbery, and aggravated assault. Part I property crimes are burglary, larceny, and auto theft.

Red text indicates data increase. **Blue text** indicates data decrease.
Data highlighted red represents the highest total within that offense category.

****The numbers in this report are preliminary and may change due to reclassification after further investigation.****

Disclaimer

NOTE: The data in the five year average column has been revised to correct a previous data error that was identified on November 11, 2020. The change does not affect current year crime data.

Territory Realignment: On November 3, 2020, territories within the City of Syracuse were realigned and some beat numbers were updated as part of the redistricting project. These changes are reflected on this CompStat presentation.

4. The territories within each district are labeled by 400's (North District), 500's (Southeast District), or 600's (Southwest District).
5. The overall incident numbers are broken down by district and then by each territory with a district. The territory within each district with the highest number of incidents for each category is highlighted in a red background.

6. Patrol officers work in three shifts or “Watches” throughout the day. Watch times are staggered to ensure continuous coverage throughout the day. Watches run as follows:

- **A Watch shift starts at 8:30 PM and ends at 6:30 AM**
- **B Watch shift starts at 6 AM and ends at 4 PM**
- **C Watch shift starts at 2 PM and ends at 12 AM (midnight)**

7. The highlighted red and purple regions are POP areas. POP areas are geographical regions in the city that are identified, through analysis, as having historically high gun crime over a 5-year period.

-The Part I offense figures are based on offenses reported to SPD and are retrieved from the department's Records Management System. The figures may include some offenses that may be reclassified after further investigation.
 -Calls for service figures are filtered to reflect only dispatched calls. Every effort was made to exclude those calls that were cancelled or withdrawn prior to being dispatched. A percentage of calls cannot be accurately assigned to an SPD district due to 'un-mappable' addresses, i.e. highways. Additionally, 2015 and 2016 address data contain a slightly higher percentage of 'un-mappable' addresses.
