RESOLUTION

A special meeting of the City of Syracuse Industrial Development Agency was convened in public session on January 24, 2023 at 12:00 noon, local time, in the Common Council Chambers, City Hall, 233 East Washington Street, Syracuse, New York.

The meeting was called to order by the Chair and upon the roll being duly called, the following members were:

PRESENT: Kathleen Murphy, Steven Thompson, Kenneth Kinsey, Dirk Sonneborn, Rickey T. Brown

THE FOLLOWING PERSONS WERE ALSO PRESENT: <u>Staff Present</u>: Judith DeLaney, Susan Katzoff, Esq.; <u>Others Present</u>: Kathleen Bennett, Esq.

The following resolution was offered by Rickey T. Brown and seconded by Kenneth Kinsey:

RESOLUTION CLASSIFYING A CERTAIN PROJECT AS A TYPE I ACTION PURSUANT TO THE STATE ENVIRONMENTAL QUALITY REVIEW ACT, DECLARING THE AGENCY LEAD AGENCY FOR PURPOSES OF A COORDINATED REVIEW THEREUNDER AND DETERMINING THAT THE ACTION WILL NOT HAVE A SIGNIFICANT EFFECT ON THE ENVIRONMENT

WHEREAS, the City of Syracuse Industrial Development Agency ("SIDA") is considering the proposed acquisition by eminent domain of certain parcels of real property owned by Horizon Transport, LLC identified as Tax Parcel Numbers 094.-04-01.0, 094.-04-02.0, 094.-04-20.0 and 094.-04-21.0 and located at 225 Taylor St., 201-07 Taylor St., 521-27 Oneida St., and 517 Oneida St. in the City of Syracuse, Onondaga County (collectively "the Land" or the "Property") in furtherance of a campus expansion project being undertaken by JMA Tech Properties, LLC (the "Company"); and

WHEREAS, the campus expansion project consists of the acquisition of the Property and the demolition of existing improvements and the construction of a new approximately 100,000 sq.ft. warehouse, distribution, related support facility, loading docks and associated parking to complement the Company's global smart logistics headquarters, to be used for centralized warehousing for all manufactured materials which will allow the Company to expand 5G manufacturing and development capabilities (as it moves inventory to the new Smart Logistics Center) as well as additional exterior lighting, landscape beautification and 24 hour security, all located on the Land (the "Facility");

WHEREAS, pursuant to EDPL Section 201, a public hearing with respect to the acquisition of the Property was held on January 23, 2023; and

WHEREAS, General Municipal Law Section 858 states that SIDA may acquire land by eminent domain in order to serve any public use or purpose, which includes any use that would enhance the City of Syracuse's economic development capabilities by promoting, attracting, encouraging and developing economically sound commerce and industry to: advance the job opportunities, health, general prosperity and economic welfare of the people of the City of Syracuse; improve their prosperity and standard of living; and, prevent unemployment and economic deterioration; and

WHEREAS, stated purpose for the proposed condemnation is in furtherance of the Project; and

WHEREAS, the Project involves the physical disturbance of 6.18 acres of land for the construction of an 100,000+/- sq. ft. high bay facility and associated parking and landscaping; and

WHEREAS, pursuant to the New York State Environmental Quality Review Act ("SEQRA") JMA has prepared part 1 of a full Environmental Assessment Form ("EAF") for the Project;

WHEREAS, SIDA desires to comply with the requirements of SEQRA and its implementing regulations set forth at 6 NYCRR Part 617 (the "Regulations"), with respect to the acquisition of the Property and the Project; and

WHEREAS, the City of Syracuse Planning Commission is the only other involved agency associated with the Project; and

WHEREAS, SIDA sent a letter to the City of Syracuse Planning Commission requesting its consent to SIDA acting as the lead agency with respect to a coordinated review of the Project; and

WHEREAS, the City of Syracuse Planning Commission consented to SIDA acting as the lead agency for purposes of undertaking a coordinated review of the Project.

NOW, THEREFORE, BE IT RESOLVED, that SIDA confirms and adopts the following conclusions:

- 1. SIDA hereby classifies the Project as "Type 1" under SEQRA.
- 2. SIDA will act as the lead agency and has elected to conduct a coordinated review of the Project.
- 3. SIDA has compared the impacts that may reasonably be expected to result from the Project to the criteria for determining significance identified in Section 617.7(c)(1) of the Regulations and evaluated the issues of causation and significance in light of the standards under the same Section of the Regulations.
- 4. SIDA has not identified any significant adverse environmental impacts associated with the Project and none are known to SIDA. Based upon its review, and for the reasons set forth

in the EAF, SIDA hereby determines that the Project will not have any significant adverse impacts on the environment and reaches the following further conclusions:

- (A) The Project will not result in: (i) substantial adverse change in existing air quality; ground or surface water quality or quantity, traffic or noise levels; a substantial increase in solid waste production; or a substantial increase in potential for erosion, flooding, leaching or drainage problems; (ii) the removal or destruction of large quantities of vegetation or fauna; substantial interference with the movement of a resident or migratory fish or wildlife species; impacts on a significant habitat area; substantial adverse impacts on threatened or endangered species of animal or plant, or the habitat of such species; or (iii) other significant adverse impacts to natural resources;
- (B) The Project will not affect a critical environmental area as designated pursuant to 6 NYCRR § 617.14(g);
- (C) The Project will not conflict with the community's current plans or goals as officially approved or adopted;
- (D) The Project will not result in the impairment of the character or quality of important historical, archeological, architectural, or aesthetic resources or of existing community or neighborhood character;
- (E) The Project will not result in a major change in the use of either the quantity or type of energy;
 - (F) The Project will not result in the creation of a hazard to human health;
- (G) The Project will not result in a substantial change in the use, or intensity of use, of land including architectural, open space or recreational resources, or in its capacity to support existing uses;
- (H) The Project will not result in encouraging or attracting of a large number of people to a place or places for more than a few days, compared to the number of people who would come to such place absent the action;
- (I) The Project will not result in the creation of a material demand for other actions that would result in one or more of the above consequences;
- (J) The Project will not result in changes in two or more elements of the environment, no one of which has a significant impact on the environment, but when considered together result in a substantial adverse impact on the environment; and
- (K) The Project will not result in two or more related actions undertaken, funded or approved by an agency, none of which has or would have a significant impact on the environment, but when considered cumulatively would meet one or more of the criteria in 6 NYCRR § 617.7(c).

- (L) The information available concerning the Project was sufficient for SIDA to make its determination and the requirements of SEQRA including 6 NYCRR Part 617 have been met.
- 5. SIDA hereby approves and adopts the EAF for the Project (Parts 1, 2, and 3), issues a Negative Declaration, and will not require the preparation of an environmental impact statement for the Project. Parts 1, 2 and 3 of the EAF are attached hereto as **Exhibit A**.
- 6. SIDA hereby directs the Chair and the Executive Director to execute the EAF and to make any filing(s) and publication required by law related to this Negative Declaration.
- 7. The Secretary or the Executive Director of SIDA is hereby authorized to and may distribute copies of this Resolution and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution.
- 8. A copy of this Resolution shall be placed on file in the office of SIDA where the same shall be available for public inspection during business hours.

The question of the adoption of the foregoing resolution was duly put to vote on a roll call, which resulted as follows:

	<u>AYE</u>	NAY
Kathleen Murphy	X	
Steven Thompson	\mathbf{X}	
Kenneth Kinsey	X	
Dirk Sonneborn	X	
Rickey T. Brown	X	

The foregoing Resolution was thereupon declared duly adopted.

STATE OF NEW YORK)
) SS.:
COUNTY OF ONONDAGA)

I, the undersigned Secretary of the City of Syracuse Industrial Development Agency, **DO HEREBY CERTIFY** that I have compared the annexed extract of the minutes of the meeting of the City of Syracuse Industrial Development Agency (the "Agency") held on January 24, 2023, with the original thereof on file on file in the office of the Agency, and that the same (including all exhibits) is a true and correct copy of the proceedings of the Agency and of the whole of such original insofar as the same relates to the subject matters referred to therein.

I FURTHER CERTIFY that (i) all members of the Agency had due notice of such meeting, (ii) pursuant to Section 104 of the Public Officers Law (Open Meetings Law), such meeting was open to the general public and public notice of the time and place of such meeting was duly given in accordance with such Section 104, (iii) the meeting was in all respects duly held, and (iv) there was a quorum present throughout.

I FURTHER CERTIFY that, as of the date hereof, the attached resolution is in full force and effect and has not been amended, repealed or rescinded.

on ______. IN WITNESS WHEREOF, I have set my hand and affixed the seal of the Agency

City of Syracuse Industrial Development Agency

Rickey T. Brown, Secretary

EXHIBIT A

EAF PARTS 1, 2 AND 3

Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants,	☐Yes ☑ No
landfills, composting facilities)?	
If Yes:	
i. Estimate methane generation in tons/year (metric):	
ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to	generate heat or
electricity, flaring):	
i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as	☐Yes ✓ No
quarry or landfill operations?	
If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust):	
12 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	
j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial	□Yes No
new demand for transportation facilities or services?	
If Yes:	
i. When is the peak traffic expected (Check all that apply): Morning Evening Weekend	
Randomly between hours of to ii. For commercial activities only, projected number of truck trips/day and type (e.g., semi trailers and dump truc	ra),
ii. For commercial activities only, projected number of truck trips/day and type (e.g., semi trailers and dump truc	ks)
iii. Parking spaces: Existing Proposed Net increase/decrease	
iv. Does the proposed action include any shared use parking?	□Yes□No
v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing	access, describe:
7. If the proposed action includes any modification of existing roads, election of new roads of entange in existing	, 400000, 40001100.
vi. Are public/private transportation service(s) or facilities available within ½ mile of the proposed site?	☐Yes ☐ No
vii Will the proposed action include access to public transportation or accommodations for use of hybrid, electric	□Yes□No
or other alternative fueled vehicles?	
viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing	□Yes□ No
pedestrian or bicycle routes?	
	DVac No
k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand	□Yes ☑ No
for energy?	
If Yes:	
i. Estimate annual electricity demand during operation of the proposed action:	
ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid	/local utility, or
	nocur atmity, or
other):	
iii. Will the proposed action require a new, or an upgrade, to an existing substation?	∏Yes No
m. Will the proposed action require a new, or an applicac, to an existing eacestation.	
l. Hours of operation. Answer all items which apply.	
i. During Construction: ii. During Operations:	
– – –	m
Saturday: Saturday: Sunday:	
• Sunday: • Sunday:	
Holidays:	

operation, or both?	☐ Yes Z No
f yes:	
Provide details including sources, time of day and duration:	
Will the proposed action remove existing natural barriers that could act as a noise barrier or screen? Describe:	□Yes□No
. Will the proposed action have outdoor lighting?	∠ Yes □No
fyes:	
Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures: Typical parking lot lighting/security lighting	
Will proposed action remove existing natural barriers that could act as a light barrier or screen? Describe:	☐ Yes Z No
	☐ Yes ☑ No
If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures:	
•	
. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons)	☐ Yes ☑ No
f Yes: i. Product(s) to be stored	
ii. Volume(s) per unit time (e.g., month, year) ii. Generally, describe the proposed storage facilities:	
ii. Generally, describe the proposed storage facilities: []. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation?	
Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? f Yes:	☐ Yes ☑ No
ii. Generally, describe the proposed storage facilities: []. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? f Yes: i. Describe proposed treatment(s): ii. Will the proposed action use Integrated Pest Management Practices?	☐ Yes ☑No
ii. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? f Yes: i. Describe proposed treatment(s): ii. Will the proposed action use Integrated Pest Management Practices? Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? f Yes:	☐ Yes ☑No
ii. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? f Yes: i. Describe proposed treatment(s): ii. Will the proposed action use Integrated Pest Management Practices? Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? f Yes: i. Describe any solid waste(s) to be generated during construction or operation of the facility:	☐ Yes ☑No
i. Describe proposed treatment(s): ii. Will the proposed action use Integrated Pest Management Practices? : Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? If Yes: i. Describe any solid waste(s) to be generated during construction or operation of the facility: • Construction: 12 tons per total (unit of time)	☐ Yes ☑ No
ii. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? f Yes: i. Describe proposed treatment(s): ii. Will the proposed action use Integrated Pest Management Practices? Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? if Yes: i. Describe any solid waste(s) to be generated during construction or operation of the facility: • Construction: 12 tons per	☐ Yes ☐ No ☐ Yes ☐ No ☐ Yes ☐ No
ii. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? f Yes: i. Describe proposed treatment(s): ii. Will the proposed action use Integrated Pest Management Practices? Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? if Yes: i. Describe any solid waste(s) to be generated during construction or operation of the facility: • Construction: 12 tons per total (unit of time)	Yes No
ii. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? f Yes: i. Describe proposed treatment(s): ii. Will the proposed action use Integrated Pest Management Practices? Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? f Yes: i. Describe any solid waste(s) to be generated during construction or operation of the facility: • Construction: 12 tons per total (unit of time) • Operation: 1 tons per week (unit of time) ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste.	☐ Yes ☐ No ☐ Yes ☐ No ☐ Yes ☐ No
ii. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? f Yes: i. Describe proposed treatment(s): ii. Will the proposed action use Integrated Pest Management Practices? Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? if Yes: i. Describe any solid waste(s) to be generated during construction or operation of the facility: • Construction: • Operation: 1 tons per	Yes No
ii. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? f Yes: i. Describe proposed treatment(s): ii. Will the proposed action use Integrated Pest Management Practices? Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? if Yes: i. Describe any solid waste(s) to be generated during construction or operation of the facility: • Construction: 12 tons per total (unit of time) • Operation: 1 tons per week (unit of time) ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste: • Construction: scrap metal recycling	☐ Yes ☐ No ☐ Yes ☐ No ☐ Yes ☐ No

s. Does the proposed action include construction or modified	fication of a solid waste man	agement facility?	Yes 🗹 No
If Yes:			1 1011
 i. Type of management or handling of waste proposed other disposal activities): 	for the site (e.g., recycling of	r transfer station, composting	g, landfill, or

Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

	Agency Ose Only [11 applicable]
Project:	
Date:	

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1) If "Yes", answer questions a - j. If "No", move on to Section 2.	□NO		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d		
b. The proposed action may involve construction on slopes of 15% or greater.	E2f		
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a		
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a		
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1e		
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q		
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	B1i		
h. Other impacts:			

wastewater treatment facilities.

2. Impact on Geological Features The proposed action may result in the modification or destruction of, or inhib access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g) If "Yes", answer questions a - c. If "No", move on to Section 3.	it ☑ NC) 🗆	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached:	E2g		
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:	E3c		
c. Other impacts:			
3. Impacts on Surface Water The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h) If "Yes", answer questions a - l. If "No", move on to Section 4.	□NC		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h		
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b		
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a		
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h		
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h		
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c		
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d		
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e	Ø	
i. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.	E2h		
j. The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h		
k. The proposed action may require the construction of new, or expansion of existing,	D1a, D2d		

Sign Envelope ID: 9206F171-27FA-4019-BA7D-194D05C8F1D0		_	_
1. Other impacts:			
4. Impact on groundwater The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t)	☑ NO) [YES
If "Yes", answer questions a - h. If "No", move on to Section 5.	Relevant Part I Question(s)	No, or small impact may occur	Moderat to large impact ma occur
a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c		
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source:	D2c		
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c		
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l		
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h		
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l		
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c		
h. Other impacts:			
5. Impact on Flooding The proposed action may result in development on lands subject to flooding. (See Part 1. E.2) If "Yes", answer questions a - g. If "No", move on to Section 6.	□NO		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderat to large impact ma occur
a. The proposed action may result in development in a designated floodway.	E2i		
b. The proposed action may result in development within a 100 year floodplain.	E2j	V	
c. The proposed action may result in development within a 500 year floodplain.	E2k		
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e		
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k		
f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?	E1e		

g. Other impacts:			
6. Impacts on Air The proposed action may include a state regulated air emission source. (See Part 1. D.2.f., D.2.h, D.2.g) If "Yes", answer questions a - f. If "No", move on to Section 7.	✓NO		YES
If Tes, unswer questions a - J. If No, move on to section 7.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
 a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: i. More than 1000 tons/year of carbon dioxide (CO₂) ii. More than 3.5 tons/year of nitrous oxide (N₂O) iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs) iv. More than .045 tons/year of sulfur hexafluoride (SF₆) v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions vi. 43 tons/year or more of methane 	D2g D2g D2g D2g D2g D2g		
b. The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	D2g		
c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g		
d. The proposed action may reach 50% of any of the thresholds in "a" through "c", above.	D2g		
e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.	D2s		
f. Other impacts:			
7. Impact on Plants and Animals The proposed action may result in a loss of flora or fauna. (See Part 1. E.2. r If "Yes", answer questions a - j. If "No", move on to Section 8.	mq.)	✓NO	□YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2o		
b. The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.	E2o		
c. The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2p		
d. The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal government.	E2p

The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc). c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land. d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District. e. The proposed action may disrupt or prevent installation of an agricultural land management system. f. The proposed action may result, directly or indirectly, in increased development	Relevant Part I Question(s) E2c, E3b E1a, Elb E3b E1b, E3a El a, E1b C2c, C3,	No, or small impact may occur	Moderate to large impact may occur

9. Impact on Aesthetic Resources The land use of the proposed action are obviously different from, or are in sharp contrast to, current land use patterns between the proposed project and a scenic or aesthetic resource. (Part 1. E.1.a, E.1.b, E.3.h.) If "Yes", answer questions a - g. If "No", go to Section 10.	₽ N0	0 []YES
3 7 3 7 3 7 3 7 3 7 3 7 3 7 3 7 3 7 3 7	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Proposed action may be visible from any officially designated federal, state, or local scenic or aesthetic resource.	E3h		
b. The proposed action may result in the obstruction, elimination or significant screening of one or more officially designated scenic views.	E3h, C2b		
c. The proposed action may be visible from publicly accessible vantage points: i. Seasonally (e.g., screened by summer foliage, but visible during other seasons) ii. Year round	E3h		
d. The situation or activity in which viewers are engaged while viewing the proposed action is:i. Routine travel by residents, including travel to and from workii. Recreational or tourism based activities	E3h E2q, E1c		
e. The proposed action may cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.	E3h		
f. There are similar projects visible within the following distance of the proposed project: 0-1/2 mile 1/2 -3 mile 3-5 mile 5+ mile	D1a, E1a, D1f, D1g		
g. Other impacts:			
10. Impact on Historic and Archeological Resources The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.) If "Yes", answer questions a - e. If "No", go to Section 11.		0 🔽	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on the National or State Register of Historical Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.	E3e	☑	
b. The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.	E3f		
c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory.	E3g		

Sign Envelope ID: 9206F171-27FA-4019-BA7D-194D05C8F1D0			
d. Other impacts:			
If any of the above (a-d) are answered "Moderate to large impact may e. occur", continue with the following questions to help support conclusions in Part 3:			
 The proposed action may result in the destruction or alteration of all or part of the site or property. 	E3e, E3g, E3f		
 The proposed action may result in the alteration of the property's setting or integrity. 	E3e, E3f, E3g, E1a, E1b		
iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.	E3e, E3f, E3g, E3h, C2, C3		
11. Impact on Open Space and Recreation The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan. (See Part 1. C.2.c, E.1.c., E.2.q.) If "Yes", answer questions a - e. If "No", go to Section 12.	N	0 [YES
ij Tes , unswer questions a - e. ij 110 , go to section 12.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.	D2e, E1b E2h, E2m, E2o, E2n, E2p		
b. The proposed action may result in the loss of a current or future recreational resource.	C2a, E1c, C2c, E2q		
c. The proposed action may eliminate open space or recreational resource in an area with few such resources.	C2a, C2c E1c, E2q		
d. The proposed action may result in loss of an area now used informally by the community as an open space resource.	C2c, E1c		
e. Other impacts:			
12. Impact on Critical Environmental Areas The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part 1. E.3.d) If "Yes", answer questions a - c. If "No", go to Section 13.	✓ No	0 [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	E3d		
b. The proposed action may result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	E3d		
c. Other impacts:			

13. Impact on Transportation The proposed action may result in a change to existing transportation systems (See Part 1. D.2.j) If "Yes", answer questions a - f. If "No", go to Section 14.	s. No	о 🗌	YES
ij 100 , maner questions a ji ij 110 , go to section 111	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Projected traffic increase may exceed capacity of existing road network.	D2j	Ö	
b. The proposed action may result in the construction of paved parking area for 500 or more vehicles.	D2j		
c. The proposed action will degrade existing transit access.	D2j		
d. The proposed action will degrade existing pedestrian or bicycle accommodations.	D2j		
e. The proposed action may alter the present pattern of movement of people or goods.	D2j		
f. Other impacts:			
14. Impact on Energy The proposed action may cause an increase in the use of any form of energy. (See Part 1. D.2.k) If "Yes", answer questions a - e. If "No", go to Section 15.	✓ N0	D 🗌	YES

Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The project involves the physical disturbance of 6.18 acres of land for the construction of an 80,000 sq. ft. facility and associated parking and landscaping.

The project may have a small to moderate impact on land and surface water because of the physical disturbance associated with construction and the Project will increase impervious surface are the area by 0.3 acres. However, stormwater will be directed to an on-site management system and discharged at a controlled rate equal to or less than existing to the existing storm sewer system. Appropriate implementation of stormwater controls (during and after construction) and limiting the extent of disturbed areas at any given time will significantly reduce potential for erosion and any resultant impacts.

The Project site is located in the floodplain, but the site is already developed with older industrial type buildings and parking areas. The Project will improve site conditions with respect to flooding by razing the existing structures and constructing a new facility with modern stormwater controls,

The Project site is located near buildings eligible for listing on the State Registry of Historic Places. However, as noted he site is already developed with older industrial type buildings and parking areas. The Project will improve site conditions with respect to aesthetics by razing the existing structures and constructing a new facility that is consistent with the architecture of JMA's global headquarters located directly across the street.

The Project site is located adjacent to a brownfield site and is likely to be contaminated as well. The Project will remediate any contamination and improve the quality of human health and the environment as a result.
