## Artist Statement

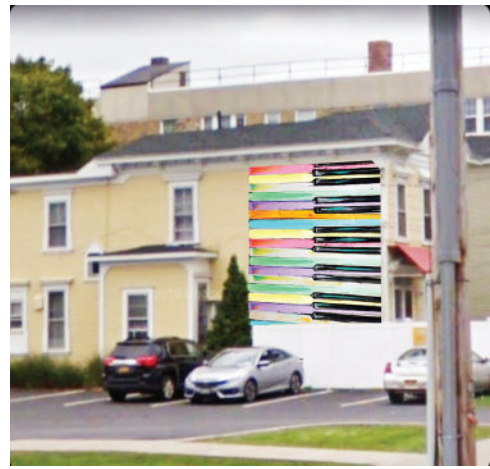

A symphony, by definition, means music for a group of instruments, whereas a concerto indicates a solo instrument with orchestral accompaniment. The piano is perfectly at home imitating a single instrument, such as the another instrument, or a particular ensemble of voices. The Symbol of the Piano" – A piano is a dream symbol of emotion and artistic creativity. The piano symbolizes music, harmony, and expression.

The piano mural is created to inspire and invite the viewer to dream musically. The colors of the keys are painted to make the mural stand out from the landscape. The Keys (black) will each highlight a Syracuse-Area Musician that has been significant to their industry and has preformed instrumentally or vocally. These musicians names are written on the keys to highlight Syracuse's musical history, creatively. The idea of this mural is intended to inspire the viewer visually while tying the communities rich history. The onlooker is motivated visually to dream artistically and inspire their own "inner theme song".

Syracuse Public Art  
Letter of Support

Dear Sir/Madame,

I am a Business Owner in the Syracuse Area and I am writing in support of the project at 411 University Ave Syracuse NY 13210. As an Architect I feel it is important to display Artwork in the Public Domain so it can relay positive and transformative messages.

I have reviewed the art and design for the building and am excited to see public art displayed in our neighborhood and community. I am familiar with Ally Walker's work as a mural artist in Syracuse and I support the project that her and owner Jack Mamiye have conceptualized.

I look forward to seeing the color and design added to our landscape. The mural's ties to the community through art and music will make for a playful and fun atmosphere in a urban area.

We appreciate the opportunity to support the Public Art efforts and look forward to seeing the completed works.

Very truly yours,

David E. Mosher, RA, President
